

The recent monsoon rains have affected different parts of the country. According to NDMA, over 33 million people are affected in 84 districts across Pakistan. Moreover, other than over 1,719 deaths; damages to roads, bridges, shops, crops, livestock, schools, health facilities and houses have been reported. Over 2.27 million houses have been damaged (either fully or partially).

» Assessment of Damages by NRSP

Upon request of the local government authorities, NRSP is conducting need assessments through the help of community institutions across the country where it is present, in order to respond to the needs of the communities adversely affected by the floods. The initial review of these assessments reported that the heavy rains and floods have badly affected 479,564 households in 451 union councils of 20 districts across the Country.
