## Introduction

### Background

The idea of this Situation Analysis originated during a meeting of Dr. Rashid Bajwa, CEO NRSP with Mr. Nazir Jatt, the MNA from Tehsil Burewala. During the meeting Dr. Rashid Bajwa presented how NRSP is using the Government of Pakistan's definition of Poverty (in which whole population of the country is divided into six bands (called poverty bands) and trying to focus on the bottom three segments i.e., extremely poor, chronically poor and transitory poor groups. During the same meeting it was decided that a Union Council will be selected in Tehsil Burewala of District Vehari where a Situation Analysis will be conducted that would not only provide information about the overall socio-economic conditions but also individually identify each household that falls in the above mentioned three categories. In this perspective the Union Council No. 85 in Tehsil Burewala was selected for the Situation Analysis.

### Objectives

Main objectives of the study are following.

- 1) Information collection about the general socio-economic condition in the villages
- 2) Identification of the poorest households

### Methodology

For the study purpose all eleven villages of the Union Council No. 85 were selected. Information was collected at two levels, i.e., village and household. For identification of poor households, the Pakistan Poverty Scorecard<sup>1</sup> was used as it has proven to be most appropriate available tool. As this exercise required collection of information from each household of the Union Council, so a team comprising of 17 persons was given the task to do the household census using the Pakistan Poverty Scorecard. All the team members belonged to different villages of Union Council 85. A brief training session was conducted in two phases in Chak 411 EB on May 6 and 7, 2008. After the training each individual was given the scorecard formats for data collection. Every evening completed formats were collected from the data collection team and

---

<sup>1</sup> Developed by mark Schreiner, Senior Scholar, Washington University. The scorecard is based on the Pakistan Integrated Household Survey 2001 and it helps in the identification of the household living below poverty line.

randomly picked formats were re-checked every following day to ensure that information is collected properly. Some of the forms were rejected on this basis and information for those households was re-collected by NRSP staff member.

For village level information collection standard NRSP Situation Analysis guidelines were followed which includes Focused Group Discussions, transect walk and other PRA tools/techniques. A standard checklist was used to ensure all aspects of the socio-economic conditions are covered. In addition, secondary source data was also collected which mainly comprises of basic profile of the Union Council from the UC office and Census Report 1998 of Vehari District. According to the Census data total Population of the Union Council is 19,677 in 2,877 households. Details are given in the following table.

S. No.	Name of Mouza / Village	Population			Households
		Both Sexes	Male	Female	
1.	Chak No 100/E.B.	1,915	996	919	276
2.	Chak No 102/E.B.	2,730	1,423	1,307	400

## Summary of Socio-Economic Findings

### Union Council 85

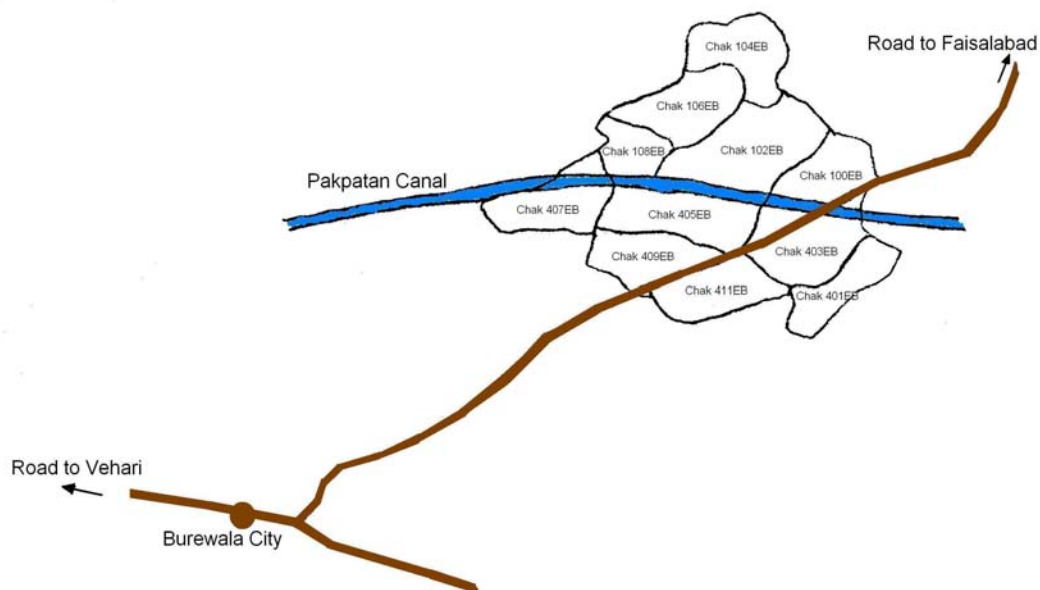

There are eleven *Chaks* (villages) in Union Council No. 85 Tehsil Burewala, District Vehari. Tehsil Burewala is situated in the east of the Vehair City in southern Punjab adjacent to District Sahiwal and Pakpattan. People of this area mostly comprise of families who migrated from India before and after 1947. The official name of Union Council No. 85 is Chak No. 403/EB.

### Introduction to the Area

The whole Union Council consists of plain area with fertile land. It has the best cultivated land which is suitable for cotton, wheat and other agricultural crops. Its land is irrigated with the fertile water of Ravi. It has a big canal system associated with Pakpattan canal. Total number of canals including distributaries and minors in the Union Council is 4 with total length of approximately 5 kilometers covering the whole Union Council. The main Burewala Chichawatani road is intersecting between the centers of this area. Communication network of roads linking all villages of Union Council is very good.

Map of Union Council No. 85

The climate of the area is hot and dry. The summer season starts from April and continues till October. May, June and July are the hottest months. Dry, hot and dusty winds are common during summer. The winter season lasts from November to

March, December, January and February are the coldest months. Rain fall is mostly during monsoon from July to September. During winter season there is very little rain.

#### Village wise Area (in acres)

Sr.	Name of Mouza/ Village	Area in Acres
1.	Chak No 100/E.B.	800
2.	Chak No 102/E.B.	2,125
3.	Chak No 104/E.B.	550
4.	Chak No 106/E.B.	925
5.	Chak No 108/E.B.	625
6.	Chak No 401/E.B.	1,000
7.	Chak No 403/E.B.	1,300
8.	Chak No 405/E.B.	1,500
9.	Chak No 407/E.B.	900
10.	Chak No 409/E.B.	1,375
11.	Chak No 411/E.B.	1,000
<b>Total</b>		<b>12,100</b>

### Demography

According to the Census 1998, total number of households in the Union Council was 2,877 with a population of 19,677 persons including 10,203 male and 9,474 female.

Average household size was 6.84. However, during the situation analysis information for the Poverty Assessment was collected from each household and according to this information present number of households in this Union Council is 3,203. Using

the average household size of each village (given in Census 1998) the present population of the Union Council is estimated as 21,895. village wise present status is given in the following table.

Village	Households	Total Population	Male	Female
Chak No 100/E.B.	393	2,727	1,414	1,313
Chak No 102/E.B.	410	2,798	1,455	1,343
Chak No 104/E.B.	219	1,433	747	686
Chak No 106/E.B.	393	2,588	1,280	1,308
Chak No 108/E.B.	52	341	173	168
Chak No 401/E.B.	203	1,358	737	622
Chak No 403/E.B.	403	2,809	1,422	1,387
Chak No 405/E.B.	451	3,135	1,671	1,464
Chak No 407/E.B.	210	1,421	740	681
Chak No 409/E.B.	223	1,565	846	719
Chak No 411/E.B.	246	1,719	871	848
<b>Total</b>	<b>3,203</b>	<b>21,895</b>	<b>11,357</b>	<b>10,538</b>

### Agriculture

The union council has an excellent record in the field of agriculture. It is the backbone of economy of the area. Every community member is directly or indirectly related to agriculture. The land is very fertile. About more than 95 percent of the total land is under cultivation and the remaining area is not being cultivated due to salinity. Its

contribution of cotton is remarkable, but according to the villagers, average yield per acre is gradually declining for the last five years. Now the wheat is the major crop of this area. Sugarcane, rice, maize, oil seed and fruits especially Kino is also grown by large number of farmers. Fruit orchards especially Kino has become popular with the farmers because of comparatively higher income averaging Rs. 50,000 per acre.

Pakpattan canal is the main source of irrigation in the Union Council. Besides, irrigation is also done by tube-wells. Following is the average per yield production of different crops:

Crops	Per Yield Production in UC # 85
Wheat	28 -30 maunds per acre
Cotton	15-18 maunds per acre
Sugarcane	600 - 700 maunds per acre

### Farming and Landholding Pattern

Farmers are producing multi cropping techniques which are in practice. About 50% of farmers have land holding less than five acre. Therefore they can not invest on purchasing agriculture machinery for their crops. The land holding pattern of whole union council is given as under:

No. of Households	Land Holding (Acres)
1,532	up to 5 acres
360	5-12.5 acres
104	more than 12.5 acres
1,207	No agricultural land (some of them have own land for house)
735	No land ownership at all (including residential)

The availability of improved quality seeds, fertilizers, insecticide and pesticide especially its cost is a big concern for majority of the small farmers. They complain that even with higher prices offered by the government, they are not able to get much income because of high prices of inputs. There is one laboratory for soil testing in Burewala Tehsil.

### Livestock

Livestock is another main income generating activity. Major livestock population includes buffaloes, cows and goats. After agriculture, income from sale of milk is the second major source of income. There is great livestock potential to increase household income through giving awareness to farmers. Major livestock diseases are foot and mouth (*Moun khur*) and *Gal ghotto*. The livestock population<sup>3</sup> in UC # 85 is given as under:

<sup>3</sup> Calculated form the village situation analysis report

Livestock	Common Breed	Total Population
Buffaloes	Neli and Sahiwal	7,230
Cows	Desi and Australian	1,140
Goats	Desi and Tedi	8,700
Sheep	Local breed	265

The area has much potential in livestock sector. Lack of basic facilities, proper and timely vaccination, adequate nutrition, guidance regarding marketing and transportation of livestock are the major issues to be addressed.

## Education & Health

In education sector, Union Council No. 85 is comparatively much better than many other Union Councils in the District. This is also evident from the secondary source information. According to the Census Report 1998, overall literacy rate in District Vehari was 36.8, and in Burewala Tehsil it was 41.3. Whereas, in Union Council No.85 overall literacy rate was even higher at 46.8.

Here with few exceptions, the education facilities are not in good condition. In most of the villages, there are four high schools, three for boys in Chak 405, Chak 409, Chak 102 and other one for girls in Chak 102EB. Total number of primary schools for boys is 9, 5 girls primary schools and there are 4 elementary schools for girls. Higher education especially for girls is difficult to access

especially for poor families as they cannot afford transportation costs.

Under PESRP School council capacity Building Project (SCCBP), in UC # 85, there are 16 primary and one elementary school in which NRSP staff mobilized members of the School Councils to provide missing facilities through utilizing GoP funds. Missing facilities include boundary walls, drinking water facilities, toilets, classroom, electrification and repairing of school building. Communities have shown their satisfaction towards quality of primary education but now they demand for higher education facilities. The list of NRSP managed schools under PESRP – SCCBP are given in following table;

Sr.	Revenue Village/ Chak	Settlement Name	School Name	Year of Estbmnt.	Type	Grade
1	100 EB	100 EB	36310411-GGPS100 EB	1964	Girls	Primary
2	108 EB	108 EB	36310412-GGPS108 EB	1988	Girls	Primary
3	411 EB	411 EB	36310165-GGPS 411 EB	1999	Girls	Primary
4	407 EB	407 EB	36310444-GGPS 407 EB	1981	Girls	Primary
5	401 EB	401 EB	36310443-GGPS 401 EB	1963	Girls	Primary
6	411 EB	411 EB	36310446-GGES 411 EB	1970	Girls	Elementary
7	405 EB	405 EB	36310232-GBPS 405 EB	1987	Boys	Primary
8	401 EB	401 EB	36310166-GBPS 401 EB	1962	Boys	Primary
9	407 EB	407 EB	36310234-GBPS 407 EB	1971	Boys	Primary

Sr.	Revenue Village/ Chak	Settlement Name	School Name	Year of Estbmnt.	Type	Grade
10	403 EB	403 EB	36310167-GBPS 403 EB	1962	Boys	Primary
11	405 EB	403 EB	36310168-GBPS 405 EB	1943	Boys	Primary
12	108 EB	108 EB	36310235-GBPS 108 EB	1980	Boys	Primary
13	403 EB	403 EB	36310164-GBPS 403 EB	1987	Boys	Primary
14	104 EB	104 EB	36310170-GBPS 104 EB		Boys	Primary
15	106 EB	106 EB	36310169-GBPS 106 EB	1971	Boys	Primary

The detailed summary of School Based Action Plans (SBAP) containing list of missing facilities that was provided to NRSP schools during Phase I is given in the following table. All these facilities have been provided under the project.

Sr.	Name of Missing Facilities	No. of Schools	Amount (Rs.)
1	Boundary Wall	1	30,468
2	Classroom with Verandah	2	531,926
3	Drinking Water Facilities	8	95,676
4	Electrification	10	99,576
5	Furniture	19	783,915
6	Repairing works	7	100,433
7	Toilet	4	581,151
<b>Total</b>			<b>2,223,145</b>

There is only one health facility (BHU) provided by the Government and it is well managed by the Punjab Rural Support Programme. One rupee is charged from every patient and large number of free medicines are also available. However, the location of the BHU is not in central place. Presently it is in Chak 409 EB, if the BHU was near Lando Masjid market, then a large number of villagers would have benefited. Family planning facilities are available in all villages. The community depends mostly on health facilities available in Sheikh Fazil and Burewala Tehsil Headquarter Hospital.

## Physical Infrastructure

A network of road is available which has facilitated the communication. The main Burewala Chichawatani road is connecting the side-line of villages and roads leading to villages are also metalled. More than 50% of the houses are *Packa*, 40% are *Semi-Packa* and remaining 10% houses having *katcha* structure. About 40 percent households have access to safe / better drinking water facilities. Similarly 68% households have latrines almost half of these connected to pit and rest with the public sewerage system. Remaining 32% have no latrine facility in their houses. More than 90% household use firewood or dung as fuel for cooking and only 7 percent use gas cylinders or kerosene oil.

Tube wells are available in all villages for irrigation owned by local farmers and most of the villages have the water supply facility for drinking water purpose. Water table varies from 30 feet to 100 feet. Telephone facility is available in most of the villages, but mobile cells have been found almost everywhere. Mobilink, Warid, Zong, Ufone and Telenor connectivity service is available throughout Union Uouncil. Streets were mostly found paved in all villages. Electricity is also available to more than 90 percent villages.

## Economic Situation

Where agriculture and livestock is found to be the major economic activities in rural areas, employment, salaried persons, skills and unskilled laborers were also found in all villages. A large number of persons are working on daily wages as unskilled labourers as they don't have any technical skills to find a better employment. The major enterprises in villages are selling dairy products, small grocery shops, electronics repairing and meat shops. People are employed in government and private sectors. Many persons belonging to this area are working in Middle East for improvement in their income. The summarized detail of major occupational groups in UC No. 85 is as follows:

Occupations	Percentage
Agriculture	52%
Salaried persons	20%
Self employed	4%
Skilled labor	4%
Unskilled labor	21%

Discussion with the community members and general observation in the field area shows that there is great potential for vocational skills, as large number of literate persons are working as unskilled labourers, if this local potential is exploited then there are good chances that income levels of these persons can be significantly enhanced.

## Important Institutions in UC No. 85

- One branch of United Bank Limited (UBL)
- Union Council office
- Three Post Office Sub-branches
- Basic Health Unit
- Police Chowki Chak 403

## NGOs Working in UC No. 85

NCHD is playing an active role in education sector for increase in enrollment under Universal Primary Education Program. They have also established adult literacy centers.

Punjab Rural Support Programme (PRSP) is contributing their share in health sector. BHU Chak No. 409/EB is well maintained by PRSP (Punjab Rural Support Programme) staff and we found this as a perfect example of public private partnership.

### Women' Socio-economic Status

Women are engaged with house based and land based economic activities, but their services are yet to be acknowledged. the reward for their services are either not paid or low paid. However, besides their household's activities like cooking, cleaning and child care, they are working in fields, grazing livestock, collecting wood for fuel,

cultivating/ harvesting crops and collecting fodder for livestock. A very small number of women are involved in carpet weaving activity and most belonging to the minority castes are looking busy in the fields doing cotton picking, wheat harvesting, sowing/ hoeing, etc. to contribute in their household income.

Education facilities for girls are available only at primary level. There has a lot to be done for improvement in women's literacy ratio in the union council. For family planning facilities and mother health care Lady Health Visitors are playing a vital role and largely community members are satisfied with their performance.

Nothing was found related with formal technical/ vocational skills activities for the women. There are some women learned skills from their own experiences and doing income generation activities in their areas. One women is running her own beauty parlor in Chak 411/EB and some were engaged in carpet weaving activity in Chak 405/EB.

### **Local Dispute Resolution Mechanism**

The area was found very peaceful and not affected by serious conflicts or law and order situation. It was observed that 60% villages resolved their disputes by involving biradary elders and rests approach the formal legal course of action and court system. They bear heavy cost of formal legal action and lengthy procedures that usually ends with no results. Major disputes arise of land ownership, irrigation water and family matters.

## **Vulnerable and Destitute Groups**

Poverty is deficiency of those things that determine the quality of life, including food, clothing, shelter and safe drinking water, but also "intangibles" such as the opportunity to learn and to enjoy the respect of fellow citizens. Ongoing debates over causes, effects and best ways to measure poverty, directly influence the design and implementation of poverty-reduction programs and are therefore relevant to the fields of international development and public administration.

In UC No. 85 the vulnerability throws itself in many forms, provoked by extreme poverty. It is difficult to differentiate among these groups because a person may overlap two or more categories. For example a poor person is working on others' fields but also having some physical deficiency or very aged or a widow. Broadly the destitute and vulnerable groups which need social protection can be divided into following groups:

### **1. Bottom Poor/ Minorities**

According to poverty scorecard results, 29 percent population is living below poverty line. This is the category of vulnerable who are living permanently and working on the others' fields. Children and women of the bottom poor community are more vulnerable to health risks. Many households in every settlement of the UC related with professions such as cobbler (*Mochi*), barber (*Nai*), laundry person (*Dhobi*) are also in vulnerable category and need safety nets for their livelihood.

### **2. Widows**

Widows having no male adult / children to support them and having daughters, who are in the age of marriage, make another important category of vulnerable in this area. This category is a group of destitute may be only 1% of the total population yet need proper care and social safeguard for their continued existence.

### **3. Physically Disabled**

Physically disabled community members are another category of the vulnerable and destitute class. This group, being not able to participate in any income generating activity, is always dependant on others. In every village such persons were found. They are blind, handicapped or suffering from chronic disease like TB. Although their number is very small (about 1%) still they need special attention and safety nets.

## **Social Protection Safety Nets**

In all villages, the formal social protection was provided to destitute in the form of *Zakat*, *Nazrana*, *Fitrana*, charity, etc. Mainly relatives and community members are supporting the destitute and vulnerable community members. However, they are not in a position to take the responsibility with full diligence. Many measures and initiatives can be undertaken to provide relief to destitute, like grants for income generation activities, microfinance without interest, micro enterprise development, skills training, free education to children, skill centers for women or distribution of livestock and transfer its progenies to other destitute families.

## **Poverty Scorecard Results**

To assess the poverty level in the 11 villages, Pakistan Poverty Scorecard was used. Scorecard information was collected and analyzed for all 3,203 households in the Union Council 85. The purpose was to identify all households that fall into six different poverty bands. According to the scorecard results, 233 households (7.3%) are extremely poor, 671 households (20.9%) are chronically poor, 552 (17.2%) are

transitory poor, 839 (26.2%) are transitory vulnerable, 621 (19.4%) are transitory non-poor and 287 (9%) are non poor. Details are given as under:

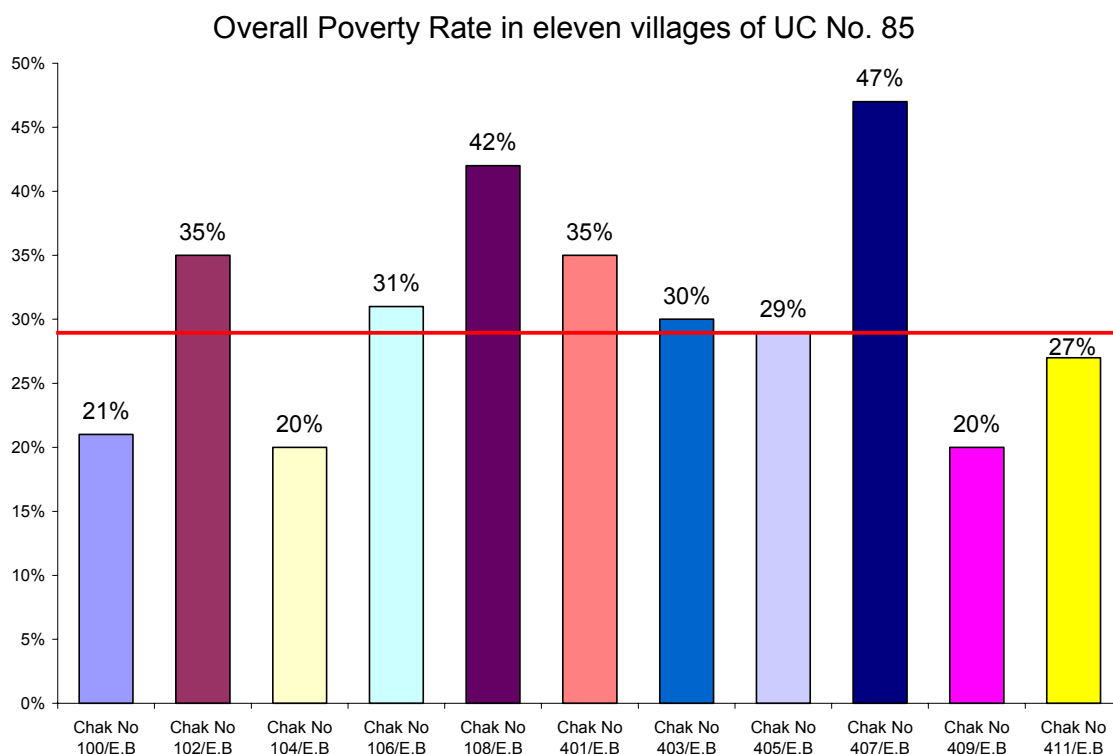

Score	Poverty Likelihood	Households	Category
0-4	85.4%	142	<b>Extremely Poor</b> 233 (7.3%)
5-9	74.9%	91	
10-14	68.2%	174	<b>Chronically Poor</b> 671 (20.9%)
15-19	60.2%	169

<b>Overall poverty rate of 3,203 households is 29.3%</b>			

Indicators wise analysis of the poverty scorecard is given in the following table:

Indicators	Sub Indic	No. of HHs	Percent
Children aged 6 to 17 attending school	No Children	1,051	33
	Not all or more than 5 children attending school	1,081	34
	3 or 4 Children attend school	393	12
	2 Children attend school	311	10
	1 Children attend school	367	11
Main Source of Drinking Water	Hand Pump, canal, river, stream	1,263	39
	Piped, motorized pump, or tube well	1,940	61
Ownership of Freezer or Refrigerator	Yes	999	31
	No	2,204	69
Type of toilet	Flush connected with public sewerage	1,026	32
	Flush connected to pit	1,141	36
	All others	1,036	32
Was the cooking stove purchased?	Yes	228	7
	No	2,975	93
Households having salaried members	One	538	17
	Two or more	95	3
	None	2,570	80
Land Ownership	Yes	2,468	77
	No	735	23
Buffalo Ownership	Yes (Rural)	1,994	62
	No (Rural)	1,209	38
Scooter or motorbike Ownership	Yes	549	17
	No	2,654	83
Radio or Cassette player Ownership	Yes	777	24
	No	2,426	76

According to the scorecard results, overall Poverty Rate in the Union Council is 29.3%. Village wise overall poverty rate is given in the following figure.

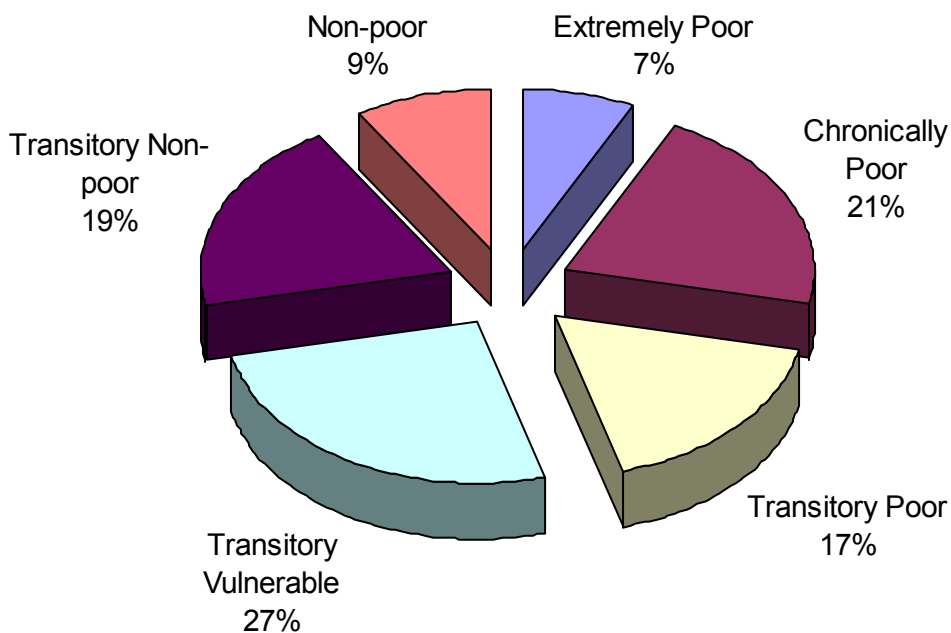

Note: Red line in the above graph shows the overall poverty rate in the Union Council

It is important to note that the overall poverty rate estimates the percentage of poor living below the poverty line or in other words “it is the average of the estimated poverty likelihoods of individual household”. However, in order to target particular groups for specific intervention, it is important to decide a cut-off and label potential participants with score at or below a targeting cut-off in respective categories (as decided). Based on NRSP’s experience of testing the scorecard in more than 30 districts, NRSP decided following cut-offs to identify people in different categories, these are

Category	Score Range
Extremely Poor	0 – 9
Chronically Poor	10 – 24
Transitory Poor	25 – 34
Transitory Vulnerable	35 – 54
Transitory Non-poor	55 – 69
Non-poor	69 – 100

According to the scorecard results 7% of the households are chronically poor, 21% are Chronically poor, 17% are transitory poor, 27% are transitory vulnerable, 19% are transitory non-poor and 9% are Non-poor. This is also presented graphically in the following figure.

Following table shows village wise number of households in each category or poverty band. Detailed lists of households in each category are given in Annex 2, 3, 4, 5, 6 and 7.

Sr.	Village/ Chak Name	Poverty Prevalence as Per Poverty Scorecard Results					
		Extremely Poor	Chronically Poor	Transitory Poor	Transitory Vulnerable	Transitory Non-poor	Non-poor
1	Chak No 100/E.B	14	55	53	106	105	60
2	Chak No 102/E.B	54	96	74	92	71	23
3	Chak No 104/E.B	5	31	19	60	45	59
4	Chak No 106/E.B	12	100	88	107	65	21
5	Chak No 108/E.B	11	13	8	10	7	3
6	Chak No 401/E.B	15	60	39	50	31	8
7	Chak No 403/E.B	22	86	94	101	85	15
8	Chak No 405/E.B	39	84	63	137	86	42
9	Chak No 407/E.B	51	64	35	30	23	7
10	Chak No 409/E.B	4	28	24	84	63	20
11	Chak No 411/E.B	6	54	55	62	40	29
<b>Overall</b>		<b>233</b>	<b>671</b>	<b>552</b>	<b>839</b>	<b>621</b>	<b>287</b>

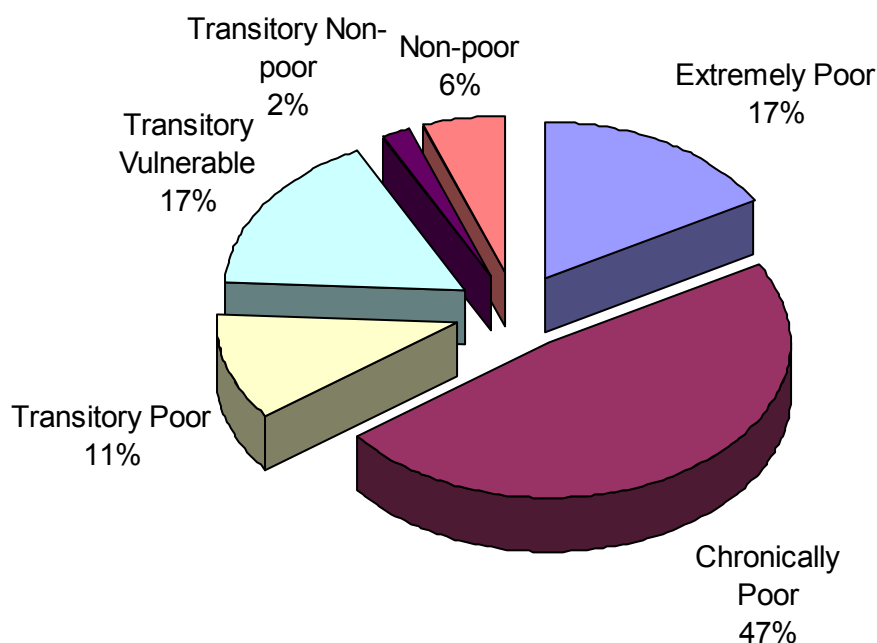

Besides the scorecard, lists of Zakat recipients were also collected from all the villages in the Union Council so as to see their poverty status according to the scorecard. However, as these lists were received on the last day, so all of them could not be identified / compared with the scorecard data. Following are the details.

- Total number of Zakat recipients is 70
- Scorecard filled for 54 Zakat recipient households
- 3 families were living at other locations so their scorecards were not filled
- 13 persons are living with someone else (1 widow was living with Numberdar of Chak 401EB but separate scorecard was not filled for her) so separate scorecards were not filled for them.

Details of the 54 Zakat recipients, whose scorecard were also filled are given in the following table.

Revenue Village	Extremely Poor	Chronically Poor	Transitory Poor	Transitory Vulnerable	Transitory Non-Poor	Non-Poor	Grand Total
Chak 100EB	1	6	3	3		2	15
Chak 102EB	2						2
Chak 104EB		2	2				4
Chak 106EB	1	4		1			6
Chak 108EB				1			1
Chak 401EB		5					5
Chak 403EB	3	2	1		1	1	8
Chak 405EB	2	4		1			7
Chak 407EB		2					2
Chak 409EB				1			1
Chak 411EB		1		2			3
<b>Grand Total</b>	<b>9</b>	<b>26</b>	<b>6</b>	<b>9</b>	<b>1</b>	<b>3</b>	<b>54</b>

Percentage of Zakat recipients in different bands is shown in the following figure.

Given the status it is recommended that for any intervention especially for the extremely poor and chronically poor households following steps should be undertaken.

1. Verification of the information given in the Scorecard
2. Asking gateway questions which can be
  - a. Does the household own 2 or more acres of land?
  - b. Does the household own more than one buffalo?
  - c. Does the household own more than two cows
  - d. Is anyone belonging to this household working abroad?

3. If the household answers “Yes” to any of the gateway questions then it should be disqualified for the intervention desired for extremely poor household
4. Similar gateway questions can be designed for the Chronically poor households
5. If the Scorecard information is found correct and replies to all of the gateway questions is in negative then the proposed package / intervention should be delivered.

## **Chak 100 EB**

May12, 2008

### **Participants**

Sufi Hanif s/o Ali Muhammad, Ghulam Rasool s/o M. Hussain, M. Yaqoob s/o Hussain, M. Shahid s/o Sufi Hanif, Abdul Ghafar s/o M. Sardar, Abdul Salam s/o Taj Muhammad, M. Salman s/o Atta Muhammad, M. Asif s/o Ibrahim, M. Hamid s/o Haji Ali Muhammad, M. Asif s/o Bashir, M. Muddassir s/o M. Ashraf, Allah Ditta s/o Ali Muhammad, M. Iqbal s/o Ghulam Nabi, M. Iqbal s/o Sardar Muhammad, Master Zulfiqar s/o Shafi Muhammad, M. Amir s/o Master Zulfiqar Ali

### **Process**

We reached the village at 1710. Already we had contacted Master Zulfiqar and Sufi Hanif for conducting focus group discussion. They were available when we reached the village. After 15 minutes, many community members gathered and the team started the dialogue.

### **Topography and Location**

The village is situated at the distance of 19.5 Kilometers from Teshil Headquarter Burewala near the main road. After passing a distance of about 18 Kilometers on main Burewala – Chichawatani Road, a sub-metalled road (of about 1½ kilometer) leads to the village.

### **Social Trends and Past History**

The village is comprises of 393 households and there are two main biradarries in the village; namely, Jat and Arain having 75% of the total households. Jat bradary comprises of 200 households, Arrain comprises of 100 households, Gujjar are 14, Ansari 17, Rehmani 10 and Dogar are 4 households. Jats have numerical strength and exert more influence in the village.

The participants informed that before the partition their elders migrated from India in 1935-36 and got settled here. Since then the local disputes are resolved locally by arbitration of the community members. There is no formal litigation in process among the community members. In case of dispute, they prefer to go to biradary elders instead of formal courts. The migration trend is minimal and those who shift to main cities leave behind their families. Frequent visits are conducted by them to the village for different social events and to meet with family.

### **Women Social Status**

In this village, women are mostly involved in household everyday jobs like washing clothes, livestock raring, cooking and tailoring for their own use. They also participate in agricultural activities, however major decision like purchase of inputs, sales of outputs is done by men folks.

### Economic Situation

Participants responded that majority of the households are dependant on farming, daily wage labour or agriculture related activities. However, there are 55 salaried persons, mostly in education, army and police departments. There are 20 self employed person and 10 skilled workers. The major exports of the village are wheat, maize, sugarcane, rice and cotton while major export are agriculture inputs, wearing clothes, and daily foot items. The community also informed that some people are also employed in Saudi Arabia as skilled or unskilled labor for improvement in household income.

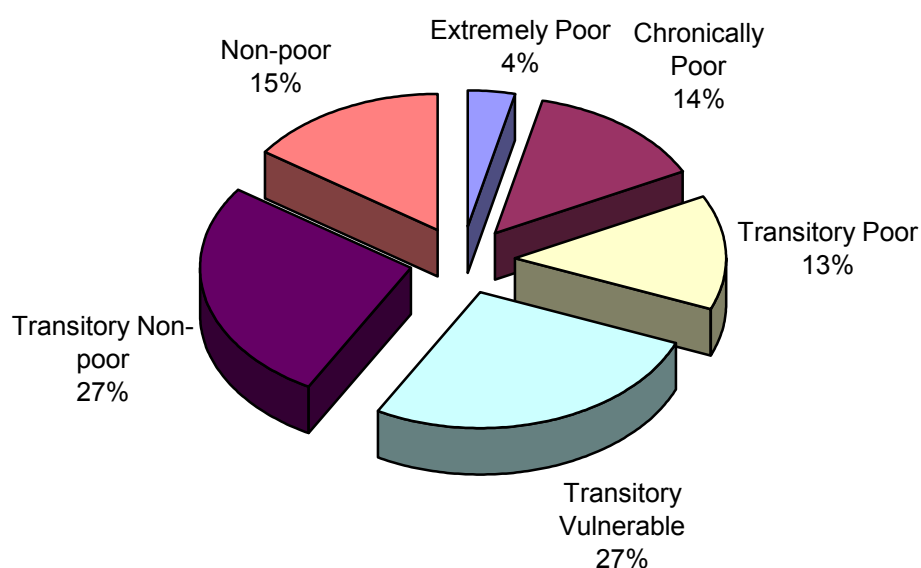

### Social Protection Nets

The participants of FGD identified nine destitute households in the village. These households receive zakat of Rs. 2,000 for three months. Except zakat there is no formal social protection mechanism available to them and they mostly rely on occasional charities from other families / relatives.

According to the PPI survey, the village households can be categorized in to six categories as shown in the following table.

Poverty Band	Number of household
Extremely Poor	14
Chronically Poor	55
Transitory Poor	53
Transitory Vulnerable	106
Transitory Non-poor	105
Non-poor	60

## **Agriculture**

Almost sixty percent of households depended directly on agriculture for their livelihood. The major rabi crops are wheat, maize and jawar while kharif crops are sugarcane, cotton and rice. There are twenty tractors and 8 thrashers in the village no agriculture machinery available for farming. Yield of major crops is given in following table.

<b>Crop</b>	<b>Yield</b>	<b>Seed</b>
Wheat	25-30 mounds / acre	Watan, Bhakkar and 2002 Inqilab
Cotton	15-20 mounds / acre	Beta
Sugarcane	800 mounds / acre	Surkh, CP 35 &
Maize	40 mounds / acre	Hybrid seed
Rice	30 mounds / acre	Sethi and sabz

There are some farmers also having fruit orchards of Kino and their earning from Kino is Rs. 30,000 to 40,000 per acre. These orchards cover 25 acres of agricultural land. They also grow mango on small scale and usually not sold in the market.

## **Landholding Pattern**

There are 231 households having land holding less than five acres, 15 households having landholding from 5 to 12.5 acres and 6 households have landholding between 12.5 and 25 acres. There are remaining 141 households who do not own land.

## **Livestock**

Livestock farming is one of the major contributors to the community's livelihoods. The participants of FGD estimated that there are 600 buffaloes (Neli breed), 100 cows (Sahiwal & Desi breed) and 2,000 goats (Tedi breed) in the village. Chichar, Mon khur and Gul Ghoto are most common disease of buffaloes and cows. There are no veterinary facilities available in the village and the inhabitants depend on the Sheikh Fazil veterinary hospital for livestock treatment.

The main production from livestock is milk and they are selling the milk production mostly to the Milk Pack Company on Approx. Rs. 15-17 /- per liter. One chiller is installed for milk storage in the center of the village.

## **Education**

There is one Government Boys Primary School and one Primary School for Girls in the village. Total 100 boys and 150 girls are enrolled in these schools. 4 male and 4 female teachers are teaching in the schools. In addition, children of the village are going to Sheikh Fazil's elementary and high schools situated at distance of 4 Kilometers. There are one private school is running namely Islamia Public School with enrollment of 50 boys and 50 girls and 3 female teachers. The participants estimated that 25% children are in the school going age and they are not enrolled in the school. According to the 1998 census report, the total literacy ratio of the village is 54 percent.

## **Health**

There is no health facility is available for the people of the village. All villagers go to Sheikh Fazil for treatment and the most common diseases in the village are Malaria and fever. In case of ailments or emergency people mostly like to visit Tehsil Headquarter Hospital Burewala which in 20 kilometers away. There are three lady health visitors are working for health awareness in the village. There is one untrained traditional birth attendant (TBA) available in the village.

### **Physical Infrastructure**

Mostly streets are paved in the village and only four streets need to be paved. Electricity facility is available to all households in the village. The water table is 40 feet below the ground level. According to the respondents, drinking water supply scheme is available and the quality of the water is satisfactory. More than 85% households have access to drinking water facilities and only 57 households either rely on handpump, well or some other source. Landline telephone facility is available in the village but most of the people prefer to use mobile phones. Sanitation facilities are available and the network of public sewerage is sufficient. Out of 393, a total of 296 households have connections with public sewerage facilities, 31 households have pit latrines, 66 households don't have latrine facility in their houses. There are three watercourses are available for irrigation purposes there is one lined watercourse.

The participants also informed that they constructed two class rooms on self help basis in the GGPS (Government Girls Primary School) Chak No. 100/EB.

## Chak 102 EB

May 13, 2008

### Participants

M. Akbar s/o M. Saddique, M. Ashraf s/o Fateh Muhammad, M. Irshad s/o Abdul Wahab, Adeel Ashraf s/o M. Ashraf, M. Sarwar s/o Sher Muhammad, Muhammad Munir s/o Bashir Ahmed, Shahid Amin s/o M. Amin, Saif ur Rehman s/o Abdul Hameed, M. Raffique s/o Bashir Ahmed, Asghar Ali s/o M. Usman, M. Sadiq s/o Yousaf Ali, M. Salim s/o Fateh Muhammad, M. Irfan s/o Abdul Rasheed

### Process

We reached in this chak at 06:30 pm and visited Master Muhammad Salim's home . We requested to him to arrange a public meeting to get village information. He brought us to main chowk where people were going home after *Maghrib* prayer. After some time sufficient group of people gathered in the main chowk and discussion was started.

### Topography and Location

The village is situated at the distance of 21 kilometers from Burewala Tehsil Headquarter. Metalled road is available to reach the village. Overall, the village is situated on plain surface of land and there are many green fields and the land is fertile.

### Demography

The total area of this village is 2,125 acres. Like all villages, land is cultivable and under cultivation by the farmers. There are 410 housing units, 50 are *Katcha* houses while remaining 50% are *Packa* and semi *Packa* houses. There are few big settlements, namely Dera Chaudhary Atta Ullah, Dera Chaudary Zahid, Dera Sehar Puri, Dera M. Hussain Waraich, Dera Ghulam Rasool Dogar, Dera Hussain Bajwa, Dera Shafi Dogar, Dera Hakim Ali, Dera Master Mehmood Dogar, and the Dera Shafi Ullah.

### Social Trends

Major biradarities are Jat (30%), Arrain (20%), Rajput (20%) and rest 30% biradarities are Sheikh, Mochi, Gujar and Pathan. Major languages spoken in the village are Punjabi and Urdu. There is a bright history of this Chak. It is very famous as "*BA Passan da Chak*". Before the Pakistan and India partition, the government allotted land to Muslim graduates who got settled here and since then is known as the Chak of Graduates.

All disputes are resolved by the formal legal system by consulting the police. Major disputes arise from irrigation water, land ownership, and some time grazing of cattle in others' fields.

### Women Social Status

Most of the women's time is consumed by working in their homes and livestock rearing. They also tailor cloths for their domestic use. Their other activities include

house cleaning and child care. Women belonging to minority biradaries are working in the fields to contribute their share in the household income.

### Economic Situation

The respondents explained that 80% of the population is directly related with agriculture for the livelihoods. There are 55 persons doing salaried job in government and private departments, 20 are self employed and remaining people are doing unskilled work. There are some persons settled abroad, most of them are in Saudi Arabia, Kuwait, Germany and USA.

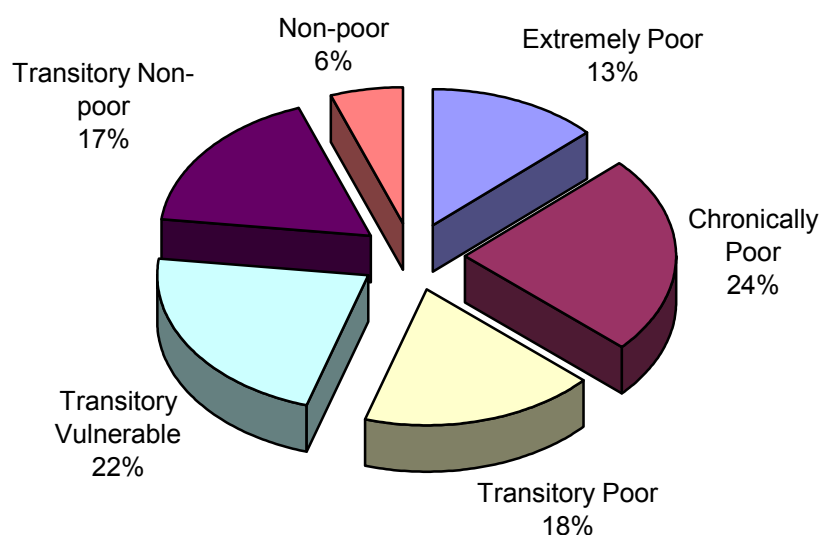

The major imports of the village are agriculture inputs including fertilizer, seed, pesticides and major exports are wheat, cotton, milk and sugarcane.

### Poverty Profile

In village, social protection nets for destitute and vulnerable are a distinct possibility. According to There are more than 10 destitute households which include mostly widows. There is no formal social protection mechanism, however, the community support them in the by providing them food and cloths.

According to the PPI survey, the village households can be categorized in to six categories as shown in the following table.

Poverty Band	Number of household
Extremely Poor	54
Chronically Poor	96
Transitory Poor	74
Transitory Vulnerable	92
Transitory Non-poor	71
Non-poor	23

### Agriculture

Majority of households are involved in agriculture sector. Major crops of the village are wheat, cotton and sugarcane. Average yield of major crops is given in following table.

Crop	Yield	Seed
Wheat	30-40 mounds / acre	Bhakkar
Cotton	5-7 mounds / acre	BT 14
Sugarcane	750 mounds / acre	BF 162

There are 80 tractors and 20 thrashers in the village. They use tractor for transportation purposes as well. The participants estimated that the orchards of Kino is spread over 250 acres owned by the local farmers. The average income from Kino is Rs. 80,000 per acre which is highest income recorded in the union council.

### **Agricultural landholding Pattern**

There are 218 households having agricultural land of less than five acres, 48 households hold from 5 to 12.5 acres, and 12 households holding more than 12.5 acres of cultivable land. Remaining 132 households do not have land ownership and they are working on other fields as unskilled labor on daily wages.

### **Livestock**

The villagers own 650 buffaloes, 250 cows, and 750 goats. The variety of the buffaloes and cows breed is Desi, Sahiwal and Neli while goats are Desi and Tedi. Major livestock diseases are foot and mouth, and cough. There is no veterinary facility available in the village. In case of need, the animal is either brought to Sheikh Fazil or the veterinary doctor is brought to the village, who charge them Rs.100 per visit. Milk production from livestock, mostly people sell to the milk processing company Nestle on Rs. 17/- per litter.

### **Education**

The women literacy rate is comparatively high as compared to other villages. There are two government high schools, one for boys and another one is for girls. The total enrollment of boys is 462 in GBHS and 400 girls in GGHS. There are 17 male teachers and 10 female teachers teaching in these schools respectively. Children of nearby villages also come to attend the high school. There is no children of school going age are out of school.

### **Health**

The participants complained that there is no health facility available in the village. In case of emergency, they have to travel to Sheikh Fazil, which is 5 Kilometers away from the village or travel to Burewala which is 21 Kilometers away from their village. There are two lady health visitors providing health services to the villagers and two experienced TBAs are available, but both of them are not properly trained.

### **Physical Infrastructure**

Area wise, this is the largest Chak in whole union council. Total area of the village is 2,125 acres. Electricity is available to all households. All streets are paved in the village. There is no landline phone facility but mobile phones are very common. Out of four, there are three lined water courses in the village. The sanitation system is available. According to the PPI, 202 households have latrines connected with public

sewerage, 77 households have pit latrines and remaining 131 households don't have latrine facility. There are approximately 100 tube wells and the water table in this area is 60 feet. Source of drinking water is hand pump and piped motor. A water supply scheme exists in the village but respondents informed that its quality is not good. About 53% households have good drinking water facilities (motor pump or tap water) while remaining 191 households rely on handpump, water courses etc.

## **Chak 104 EB**

May 12, 2008

### **Participants**

Haji Mushtaq Ahmed s/o Faqir Muhammad, Muhammad Jamil s/o Pir Muhammad, Ishtiaq Ahmed s/o Mushtaq Ahmed, Nazir Ahmed s/o Khushi Muhammad, Ghulam Ahmed s/o Sharaf Din, Naseer Ahmed s/o Ghulam Muhammad, Mushtaq Ali s/o Roshan

### **Process**

The village is situated on the left bank of the Bias River which is dried due to the scarcity of the water. The distance of Chak from Burewala Tehsil Headquarter is 24 Kilometers. We followed the main Burewala Chichawatani road, after 16 kilometers, a small metalled road on the left side leads to the village. We reached the main settlement at 09:00 am and visited the dera of Haji Mushtaq Ahmed, Deputy District Education Officer (retired) and asked if they could arrange an FGD. He gathered the community members for meeting in a short time and we gathered information about the village from the participants of this meeting.

### **Demography**

Total population of the locality mentioned in the Census Report 1998 is 1,191 with 182 households. But participants informed the number of population is much more. They informed us that the village comprises of 219 households and there are 4 main biradarries inhabiting in the village. These are Dogar having 150 households, Jatt having 6 households, Arain having 2 households, Mughal having 4 households and remaining households related with Mochi, Nai, Kumhar, etc. Dogar biradary is in majority in village and they also occupy the major landholding and other economic resources of the village.

### **Social Trends**

Peaceful coexistence is the norm of the village and there is no major dispute which has obstructed the normal life. If there is any dispute the elders take lead in resolving it. On migration trends, the participants responded that some persons migrated to Middle East for employment purposes.

### **Housing Structure**

The villagers estimated that 60% housing units are *Packa* and remaining are *Katcha-pacca* houses made of clay and mud. Majority of the population is settled in the main settlement and very few families are living in deras.

### **Women Social Status**

In this Chak women effectively participating in farming, livestock rearing, embroidery along with daily routine work like washing clothes, cooking, etc.

### **Economic Situation**

In this Chak about 70 percent of the total households are directly dependent on agriculture and agriculture sector is the main contributor to the economy of the village. However, there are 50 salaried persons, mostly in education and police departments. There are 6 self employed person and a large number of unskilled / daily wagers. The participants informed that about 100 persons are employed in the Middle East. Most of them are working in Kuwait. Major exports of the village are

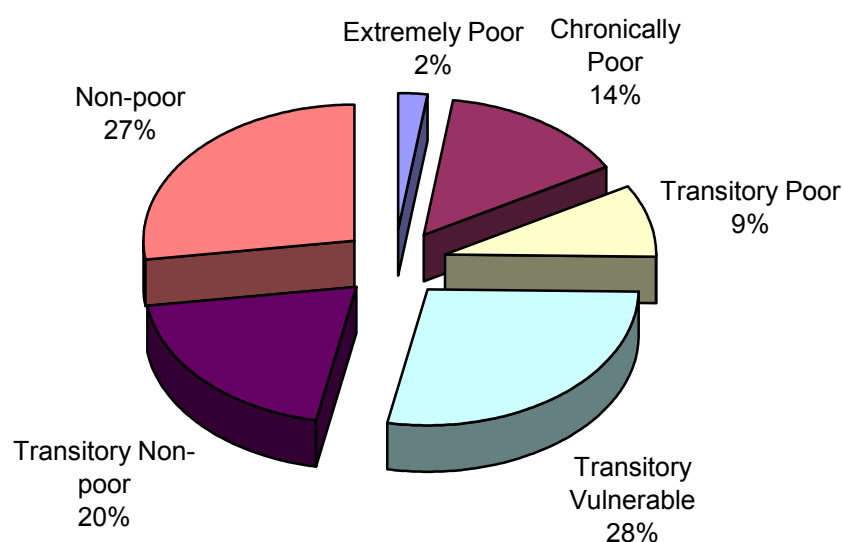

wheat, sugarcane, cotton and maize while major imports are agriculture inputs, wearing clothes, and foot items.

### Poverty profile

The participants of FGD informed about 5 destitute households in the village but there is no formal social protection mechanism available to them. They are supported by their relatives and local persons. There is one physically disabled person who lost both legs in an accident.

According to the PPI survey, the village households can be categorized in to six categories as shown in the following table.

Poverty Band	Number of household
Extremely Poor	5
Chronically Poor	31
Transitory Poor	19
Transitory Vulnerable	60
Transitory Non-poor	43
Non-poor	59

### Agriculture

Agriculture is the main source of income and 70% of households are directly related. The major *Kharif* crops produced in the village included cotton, sugarcane and rice while *Rabi* crops are wheat, maize, and potato. There are twenty tractors in the village but no thrasher or other agriculture machinery available for farming. Tractors are mostly used for ploughing and transportation purposes. Yield of major crops is given in following table.

Crop	Yield	Seed
Wheat	25-30 mounds / acre	Bhakkar, Satluj and B5
Cotton	15-20 mounds / acre	Beta
Sugarcane	500 mounds / acre	No. 64 and 62
Maize	35 mounds / acre	Hybrid seed
Potato	40 mounds / acre	Red and white seed

### Landholding Pattern

The total area of the village is 550 acres. There are 110 households having land holding less than five acres, 25 households having landholding from 5 to 12.5 acres, 4 households have landholding between 12.5 and 25 acres. There are 80 households who do not own land.

### Livestock

Livestock rearing is another main activity in the village. Women are specifically involved in livestock rearing in homes and they also collect fodder from the fields. Participants estimated that there are 400 buffaloes (Sahiwal breed), 200 cows (Australian and Desi breed) and 500 goats (Tedi and Desi breed) in the village. Livestock products are used for household consumption and many households are also selling milk to the milk processing companies. There is one veterinary clinic facility available in the village. The common livestock diseases are *munh khur*, *gul ghoto*, etc.

### Education

There are two government schools available in the village; one primary school for boys and other one is elementary school for girls. There are 200 boys enrolled in boys' primary schools while 400 girls are enrolled in girls' elementary school. In boys primary school, three male teachers are teaching, while in girls elementary schools, seven female teachers are teaching. They also informed that children are going to Chak 9.L for high education which is 2 kilometers away from the village. All school going children of the village are attending the school and with a very low percentage of out of school children belonging to the minority biradaries.

### Health

There is one dispensary available in the village. But there is only one dispenser and no female health technician. There are no life saving drugs available in the dispensary. One lady health worker is working in the village and also two TBAs available in the village, both are untrained. Mostly people visited *Lando Masjid Bazaar* where many MBBS doctors and quacks are available. In case of emergencies, they are referred to Burewala Tehsil Headquarter Hospital which requires travel of 24 kilometers.

### Physical Infrastructure

All streets in the village are paved with bricks soling. No household is availing the landline telephone facility; however, people prefer to have mobile phones for communications. Electricity is available to all households of the village. For drinking water there is a water supply scheme and only 16 percent households use hand pumps. Water table is 40 feet and the quality of drinking water is good. The drainage system of the village is in fair condition. Around 77% households have pit-latrines and remaining 23% have no latrines in their houses. There are 20 tube wells, available for irrigation.

## Chak 106 EB

May 09, 2008

### Participants

Ahmed Saeed Numberdar s/o Allah Yar, Zahoor Ahmed s/o Sajwar Ali, Mazhar Fareed s/o Habib, Umer Faryad s/o Falak Sher, Mustafa s/o Sajwar, Ghulam Abbas s/o Allah Ditta, Shah Nawaz s/o Allah Yar, Sajid s/o Hamid, Kalim Raza s/o Pir Baksh, Baqir Ali s/o Hamid, Sharaf Riaz s/o Allah Yar, Waqar s/o Allah Ditta, Falak Sher s/o Allah Baksh, Nawaz s/o Ali Muhammad, Lal s/o Haman, Maqbool Ahmed s/o Ghulam Muhammad

### Process

We visited Chak 106/EB village for focus group discussion on May 09, 2008. FGD started at 03:00 pm and lasted for about one and half hour. The meeting was arranged in the *dera* of Mr. Saeed Ahmed, numberdar of Chak 106/EB.

### Social Trends and Demography

Major languages spoken in the village is Sarayki, Punjabi and Urdu. Major tribes/biradarries are Chaddar (40%), Taroli (30%), Sargaana (3%), Gawance (5%), Sial (5%), Arain (3%) and remaining are minorities include Lohar, Tarkhan, Kumhar, Mochi and Christians.

The village comprised of 393 households, which include with major tribes of Chaddar & Taroli. This village is also famous in the UC because they are not migrated people and permanently resident although nearly all nearest population of the area migrated after partition.

The disputes are often resolved internally by the elders of the biradary and the numberdar. They also prefer to resolve the serious matter locally that rarely happens. Women are mostly involved in households' activities, livestock raring and land based farming.

### Housing Structure

There are 135 *Katcha* houses, 24 are *Semi Packa* and 108 are *Packa*. Most of the *Packa* houses are made of cemented walls and pre cast guarder roofs and *Katcha* houses are made of mud & wood.

### Women Social Status

Women normally do not visit other houses other than their relatives. Most of the women are doing households work. In this village, less number of women goes to farms for cutting and cleaning crops. They are involved in taking care of livestock.

### Economic Situation

Mostly in every household a person is directly or indirectly engaged with agriculture and other is doing labor works on others' fields. 115 persons are employed in government and private sector, 20 are small entrepreneurs, 20 are working in their area as skilled labor and remaining 150 are doing work as unskilled labor. We found a famous Halwa (sweet) shop that is specialty of

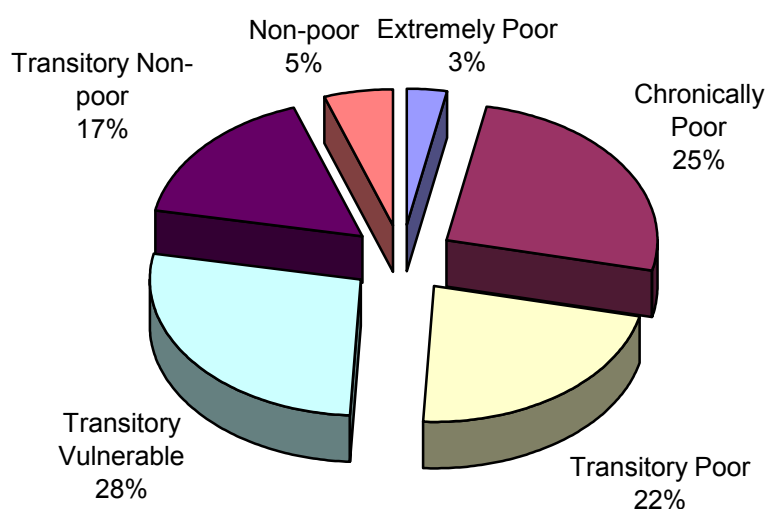

the village. This Chak has comparatively highest number of employed persons.

### Poverty Profile

There is no formal social protection mechanism available for destitute. The community identified 8 households as destitute which include the old age people, widows, and disabled persons.

According to the PPI survey, the village households can be categorized in to six categories as shown in the following table.

Poverty Band	Number of household
Extremely Poor	12
Chronically Poor	100
Transitory Poor	88
Transitory Vulnerable	107
Transitory Non-poor	65
Non-poor	21

### Agriculture

The participants informed that total area of the village is 925 acres and all the area is being cultivated by the farmers. The main source of irrigation water is Pakpattan canal. There are 27 tube wells owned by farmers. They irrigate their land and also provide water for irrigation to those farmers who do not have their tube well. They charge Rs.500 per hour. In this area the water table is approximately 100 feet and water quality is good.

There are 140 households who own less than five acres land and 80 households who own above 5 acres land. There are only 12 households who hold above 12.5 acres lands. While 160 households do not hold agricultural land and work as unskilled labor on others' fields. There are sixteen tractors and four thrashers available in the village.

Major crops of the village are sugarcane, wheat, cotton, rice and maize. Yield of major crops is given in following table.

Crop	Yield	Seed
Wheat	30 maunds / acre	Watan, Inqilab, Bhakkar
Cotton	15 maunds / acre	BT 121
Sugarcane	800 maunds / acre	CP 43, Indian
Maize	60 maunds / acre	Hybrid seed

### Livestock

Livestock rearing is also common in the village and almost every household has livestock. Following table shows estimated figures of livestock in the village.

Livestock	Number	Common Breed
Buffaloes	350	Neeli
Cows	70	Sahiwal
Goats	400	Tedi & Desi
Sheep	200	Desi

There is no veterinary facility available in the village, and in case of livestock diseases, veterinary doctor is brought from the Lando Masjid who charges Rs.100 per visit.

### Education

There are two government schools, one for primary school for boys and one elementary school for girls. There are 260 students enrolled in these schools, 150 boys in boys' primary school and 110 girls in girls' elementary school. There are seven female teachers in girl school and in boys school there are three male teachers. The villagers also informed and estimated that 30% of school going age children are not attending school.

During transect walk, we visited GBPS 106/EB where the children were playing volleyball and also found that some buffaloes were raring in the school ground. The school building condition was good. Furniture for children was provided to the school under NRSP SCCBP.

### Health

There is no health facility provided by the government in the village but there are 4 private clinics running by the dispensers. In case of ailments or emergency people visit Tehsil Headquarter Hospital Burewala which is 22 kilometers away.

We found two lady workers visiting homes for health awareness in the village. There is no traditional birth attendant in the village and villagers call the TBA from adjacent village in case of delivery cases.

### Physical Infrastructure

In this village most of the streets are paved. About 50% people have mobile cell phones and people avoid using landline phones. Electricity is available to approximately all households of the village. The water table is 100 feet and therefore tube wells are the most feasible way of irrigation water. Underground water quality is also good. The drainage system of the village existed and people mostly left the used

water to flow in the drains. About 150 households have latrines connected with public sewerage, 86 have pit latrines and remaining 157 households do not have latrines in their house. For drinking water, 115 households (29%) have electric motors, and remaining 71 percent households rely on handpumps etc. for drinking water.

## Chak 108 EB

May 13, 2008

### Participants

Ghulam Dastagir s/o Faiz Ullah, Zafar Iqbal s/o Mukhtar Ahmed, M. Younas s/o M. Tufail, Ahmed Subhani s/o M. Younas, M. Ilyas s/o M. Tufaul, M. Tasin s/o Ghulam Qadir, M. Ismael s/o Karam Din, M. Shahid s/o Ghulam Dastagir, M. Tahir s/o Ghulam Dastagir, M. Subhani s/o M. Younas, Farooq Subhani s/o M. Younas, Zaheer ud Din s/o Mukhtar Ahmed, Atta Subhani s/o M. Younas

### Process

We reached to the Chak 108/EB, Gujran Da Dera around 2 pm. Some farmers were taking rest under a tree after hard work in the fields. We requested them to arrange FGD and they gathered more people from their village for a meeting.

### Topography

The village is situated about 21 Kilometers from the Tehsil Head Quarter. Burewala Chichawatani metalled road also leads to this village but Dera Gujran is situated on the right bank of the *Pakpattan* canal. Whole area of the village is plain and covered with lush green fields and beautiful orchards. The area is easy to be access and traveled either on two or four wheelers. The total area of the chak is 625 acres.

### Demography and Social Trends

The Chak 108/EB comprises of three big settlements namely Gujran da Dera, Chanchanian da Dera and Dogaran da Dera. Total households of this chak are 52 and the village is inhabited by multiple biradarries. No single bradirry is in majority like others chak of UC # 85. In this Chak, there are 18% households of Gujar bradirry, 26% Mochi bradirry, 13% Arrain, 21% Dogars, 13% Chanchanian and 8% are Jat.

The local dispute resolution mechanism is not trusted by members of other biradarries. Therefore, majority of disputes are settled in Police Station or Courts. The participants of FGD shared that the end resolution of all disputes are determined when they run out of money.

### Housing Structure

The housing structure is almost same as exhibits in rural areas. There are 72 housing units, 65 percent are *Katcha* houses and remaining housing structure is *Packa*. The population density is very low in this Chak.

### Women Social Status

Women were found actively involved in fields, working equally with their family members. Women go to farms for cutting fodder and during the harvesting season. They also breed cattle and their products are used for household consumption and mostly sell milk to the processing companies. Their other activities also include house cleaning, cooking and child care. These activities have overburdened their lives and it is difficult for them to find some time to refresh.

### Economic Conditions

Like other Chaks of Union Council 85, the economy of Chak 108/EB is directly based on agriculture. Participants of the FGD explained that there are only seven persons employed with private and government departments, 5 are self employed, 3 skills labor, 50 unskilled labor and remaining are involved in agriculture.

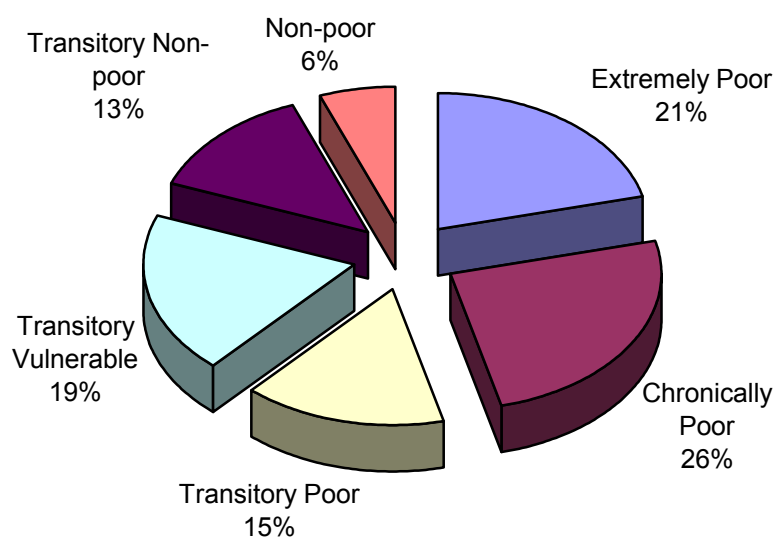

Major exports of the village include wheat, maize and sugarcane while major imported items are daily food items, clothes, and agricultural inputs.

### Poverty Profile

The community identified 2 households as destitute both widows. The major support for the destitute is from the local community in the form of charity or providing them meals. Participants also showed their satisfaction on Zakat delivery system and said that Zakat amount is distributed in proper way. However the amount is too small to cater the needs of the recipients.

According to the PPI survey, the village households can be categorized in to six categories as shown in the following table.

Poverty Band	Number of household
Extremely Poor	11
Chronically Poor	13
Transitory Poor	8
Transitory Vulnerable	10
Transitory Non-poor	7
Non-poor	3

### Agriculture

Agriculture is the main source of income where 65% of households are directly related to this profession. The major crops produced in the village included wheat and maize while *Rabi* crop is sugarcane. Yields from the major crops are given bellow:

Crop	Yield	Seed
Wheat	30 mounds / acre	Bhakkar and Inqilab
Maize	60-70 mounds / acre	Hybrid seed
Sugarcane	600 mounds / acre	CP 34 and 40

There are many fruit orchards own by the people of this Chak. Major fruit orchards of Kino covered 200 acres of land, Guava 25 acres land and banana on 9 acres land. They estimated that the income from Kino is Rs. 40,000 to 50,000 per acre.

There are five tractors available in the village, which are mostly used for plough and transportation purposes. There are also two threshers and two spray machines are available for farming. There are seven tube wells for irrigation.

### **Agricultural Landholding Pattern**

Twenty households have landholding less than five acres and five own between 5-12.5 acres land. While only 3 households own more than twenty five acres land. Total area of this chak is 625 acres and all land is fertile, cultivable and under cultivation by the farmers.

### **Livestock**

Livestock raring is another main activity in the village for their smooth income generation. Women are specifically involved in livestock raring in homes and they also collect fodder from the fields. There participants estimated that there are 125 buffaloes, 50 cows and 80 goats in the village. Major livestock diseases are mouth and foot and gal ghotto. Livestock products are used for household consumption and many households are also selling milk to private companies who have installed chillers in the village and also in nearby villages.

### **Education**

There are two Government Primary schools, one for boys and another one for girls. The participants estimated that there are total 80 children are enrolled in both primary schools, which include 40 boys in GBPS and 40 girls in GGPS. There one male teacher and 2 female teachers are teaching in both schools. About 25% of the children are in the school going age and they are attending the school. Children continue their middle and high school education by traveling to Chak 102/EB and 112/EB which has the distance of 3 Kilometers.

### **Health**

In the whole village there is no health facility. There is no TBA but family planning service and other heath related awareness is provided by Lady Health Visitor. In case of delivery cases, poor families still call the TBA from adjacent village Chak 112/EB. People of this Chak usually consult the health facility from BHU of Chak 104/EB.

### **Physical Infrastructure**

All streets of the village are unpaved. Telephone facility is not available but people do have mobile cells phones. Electricity is available to all houses situated in the village.

The water table is 50 feet, therefore the community uses hand pumps for drinking water and water quality is satisfactory. Out of 52, only 18 households have latrines connected with pit and rests of them do not have latrines in their houses. There is no concept of sanitation system and used water is let to flow in open space. There are three watercourses and 7 tube wells available for irrigation purposes. All three watercourses are kacha (not lined).

## Chak 401 EB

May 10, 2008

### Participants

Muhammad Irshad s/o sultan Ali, Ali Asghar s/o Muhammad Sharif, Maqbool Ahmed s/o Pir Baksh, Fazal Karim s/o Imam Din, Nazir Ahmed s/o Ibrahim, Muhammad Amjad s/o Abdul Ghani, Sohail Yousaf s/o Muhammad Yousaf, Rizwan s/o Ghulam Hussain, Muhammad Iqbal s/o Bashir Muhammad

### Process

The village is situated about 1.5 kilometers from the metalled road (main Burewala Chichawatani Road), while the total distance from Tehsil Headquarter is 17 kilometers. We reached the village at 11:30 am where the routine CO meeting was on going. After completion of the meeting we explained the purpose of our visit and requested the CO members to arrange a meeting by adding Non-CO community members. At that time, most of the people were harvesting wheat crop in their fields so after some time five non-CO members were also called.

### Topography and Location

Village is situated on the plain area on the left bank of 5 L distributory (*rajbah*). The landscape of the village is very beautiful. There are 200 housing units, 115 are *katcha* houses, made of mud walls and the roof made of hush, covered externally by mud. Remaining 79 houses categorizes as *Packa* houses. The population is density is high.

### Social Trends

The common language spoken in the village is Punjabi. Major Biradarries are Arain (50%), Jat (35%), Rajpoot (8%) and remaining (7%) Maliks. The total number of households in the village is 203. This village land is allotted to villagers in 1958 under cooperative society in Bhutto era. In case of any disputes, the concerned biradiarys' elders play an important role to resolve it. However in serious cases, the formal legal system is also approached.

Name of Tribe	No. of Households
Arain	102
Jat	71
Rajput	16
Malik	14
<b>Total</b>	<b>203</b>

People migrated from their village to nearest cotton mills for employment purposes. Women are mostly involved in household chores like washing clothes, livestock raring and embroidery work. But they are doing this work only for their own use. There mobility is also very low and they participate in different ceremonies like marriage, funeral and child birth.

### Economic Situation

Farming and livestock raring are the main economic activities in the village. Almost every member of the community is directly or indirectly involved in these activities. However, there are 40 salaried, 15 self employed, and 10 skilled labourers in the village. There are few enterprises being run by the inhabitants. These include four small shops in houses where items of daily use are available.

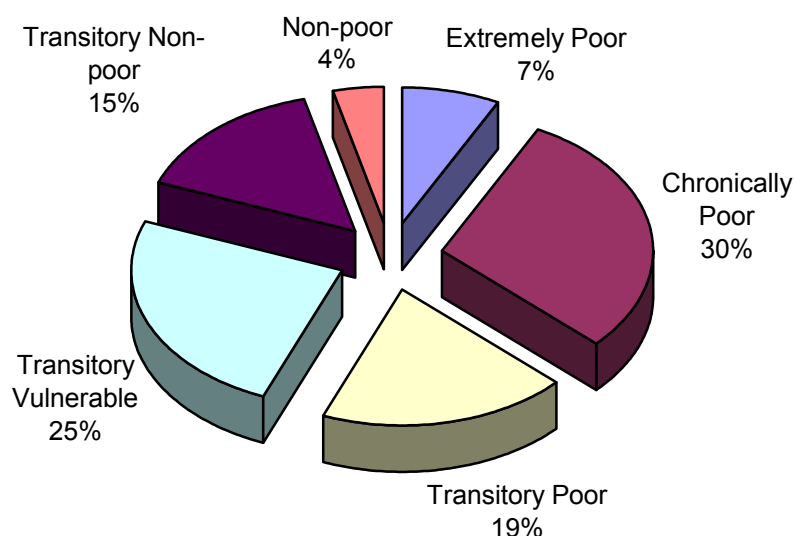

### Poverty Profile

There is no formal social protection net available for vulnerable and destitute. The local people help the destitute in the form of Zakat or provide food grains. Three destitute persons were identified by the participants.

According to the PPI survey, the village households can be categorized in to six categories as shown in the following table.

Poverty Band	Number of household
Extremely Poor	15
Chronically Poor	60
Transitory Poor	39
Transitory Vulnerable	50
Transitory Non-poor	31
Non-poor	8

### Agriculture

All households are dependant on agriculture for their livelihoods. Total land of the village is 1,350 acres which is all cultivable, out of which all land is under cultivation. Major crops are wheat, cotton, sugarcane and rice. There are 107 households who own agriculture land from one to five acres, and no household is holding above 5 acres of land. Rests of the households are landless and working on fields owned by others as tenant and unskilled labor. Most of landless people belong to the Mochi and Lohar biradaries.

There are 25 tube wells used for irrigation and drinking water purposes. They are mostly owned by the local farmers. Most of them are operated by electricity which is available in the village. Agriculture machinery is available for farming, including 15 tractors and 8 thrashers owned by the persons belonging to this village. Average yields from the major crops are given bellow:

Crop	Yield	Seed
Wheat	25-30 mounds / acre	Watan and Inqilab 91
Cotton	15-20 mounds / acre	BT 121/ 73/ 37/ 584
Sugarcane	600 mounds / acre	CP 77 and 43
Rice	35 mounds / acre	

### Livestock

The villagers breed buffaloes, cows, and goats and approximately all household owns buffaloes. There are 300 buffaloes, 120 cows and 400 goats in the village. The

production from animals is mostly used for household own consumption and many farmers are selling the milk to the milk processing companies like Haleeb, Milk Pack, etc on Approx. Rs. 15-17/- per litter.

### Education

There is one Government Boy Primary School, one Government Girls Primary Schools and one private school for girls and boys named Fatima ul Zohra Elementary School. Total eight teachers are teaching in these schools, three male and five female. School wise enrollment is given in the table below.

Name of School	Number of students		Number of Teachers	
	Men	Women	Men	Women
GBPS Chak 401/EB	100	-	3	-
GBPS Chak 401/EB	-	125	-	3
Fatima tul Zohra Middle School	-	100	-	2

Participants estimated that 30% children in the school going age are out of school. They also informed that children are going to Sheikh Fazil Government Higher Secondary School for high education which is 4 kilometers away from the Chak 401EB. The overall literacy ratio is 47 percent.

### Health

There are four private clinics being run by private dispensers namely Dr. Abid Maqsood, Dr. Rashid, Dr. Javaid and Dr. Niaz. The community is not satisfied with these so called doctors but there is no other health facility provided by the government in the village. The next nearest health facility is in Burewala Tehsil Headquarter Hospital which requires the hardships to travel 15 kilometers. Although there is a BHU in Chak 409EB but it is easier to get transport for Burewala than to get to Chak 409.

There are two Lady Health Visitors working in the village. There are three old women who provide services in case of delivery and they too have no formal training.

### Physical Infrastructure

All streets in the village are paved with bricks. There is landline phone facility available in the village and most of the people also have mobile phones. There is a sanitation facility but the hygiene conditions of houses are unsatisfactory in the whole village. Out of 203 households 75 (37%) do not have latrines in their houses. Electricity is available to all households of the village. For drinking water purpose, the villagers mostly use the hand pump (59%) and motor pump or tubewell (41%). Water table is 80 feet and the quality of drinking water is not so good.

## Chak 403 EB

May 13, 2008

### Participants

Ch. Ghaus s/o Bashir Ahmed, Ch. Riaz Ahmed s/o Nazir Ahmed, Ch. Allah Ditta s/o Nazir Ahmed, Ch. Mushtaq s/o Sultan, Liaquat Ali s/o Ashraf, Ghulam Haider s/o Sabir, Ejaz Ahmed s/o Talib Hussain, Sajjad s/o Talib Hussain, Raffique s/o Karam Baksh, Anwar Shah s/o Arif Shah, Fauji Sain s/o Ismael

### Process

We visited GBPS Chak 403 E/B which is situated on the main road (Burewala – Chichawatani) and met with Master Ch. Mushtaq to arrange a meeting with community members. He brought us to *Gujaran da Dera* and after some time, few persons came and asked the purpose of our visit. When we explained, one person tried to inform other community members in the village and later informed that due to wheat harvesting season, most of the villagers are busy in fields. We waited for some time and started FGD when enough number of participants was available. Meeting was held in house of Ch. Ghaus s/o Bashir Ahmed.

### About the Village

The village is situated on main Burewala - Chichawatni road and is 16 kilometers away from the Tehsil Headquarter. The land structure is sandy. Village is located on the left bank of Pakpattan canal distributory (*rajbah*), right bank of 5-L and also on the right bank of 5-L (*rajbah*) with a plain area. The density of population is low and majority of the families have constructed their houses in their own agricultural land (locally called *deras*). There are few big settlements, namely Gujran da Dera, Lando Masjid, Aasaria da Dera, Chak Murabba and the Ganga Singh da Dera.

### Demography

There are 403 households are living in this village with a total population of 2,809 where male population is 1,422 and 1,387 are females. Average household size is 6.97.

### Topography and Housing Structure

Three sides of the village covered with canals and the scenery of the village is very attractive.

### Social Trends

Main languages spoken in the village are Punjabi and Urdu. Major Biradarries of the Village is Jatt (27%), Rajput (27%), Dogar (14%), Gujar (14%), Arrain (5%) and remaining (13%) households belongs to minority biradarries. Most of disputes are not resolved locally. In case of serious dispute, they contact Police to resolve it. They know that there is finally truce between the parties without any result.

Castes /Biradarries	No. of Households
Jatt	109
Rajput	109
Dogar	56
Gujar	56
Arrain	21
Others	52
<b>Total</b>	<b>403</b>

### Women Social Status

Women are mostly involved in household chores like cooking, washing clothes, cattle care and embroidery work. But they are doing this work only for their own use. There

mobility is also very low. Women belonging to minority biradaries are also involved in land based farming.

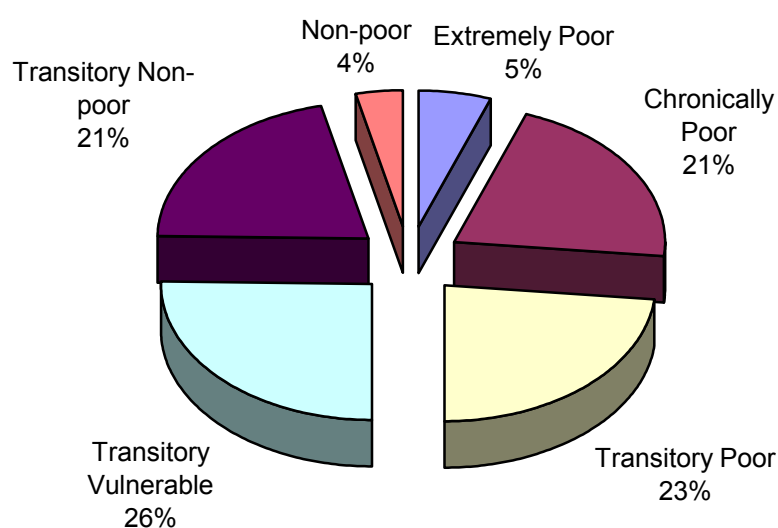

### Economic Situation

There are 80% of households of this village who are directly or indirectly involved in farming. There are more than 90 persons employed in government and private departments, 50 are unskilled workers, 11 are skilled workers, and rests of them are involved in farming. Major import of the village is food items like cooking oil, clothes and agriculture inputs. Their major exports are maize, sugarcane, cotton and wheat. There also 15 persons who are employed in Kuwait and Saudi Arabia.

### Poverty Profile

There is no formal social protection net available for vulnerable and destitute families. Local people help them in the form of Zakat or provide food grains. However, this support is minimal. According to the PPI survey, the village households can be categorized in to six categories as shown in the following table.

Poverty Band	Number of household
Extremely Poor	22
Chronically Poor	86
Transitory Poor	94
Transitory Vulnerable	101
Transitory Non-poor	85
Non-poor	15

### Agriculture

Total area of the village is 1,300 acres and all land is cultivated. Total economy of the village is based on agriculture. Major crops of the village are cotton, sugarcane and wheat. Yield of major crops is given in the following table.

Crop	Yield	Seed
Wheat	30 mounds / acre	Inqilab, Bhakkar and Watan
Cotton	25-30 mounds / acre	BT 121
Sugarcane	600 – 700 mounds / acre	CP 34-77-400 & 62

There are some fruit orchards of Kino own by the farmers of this village covering 150 acres. Farmers' earning from Kino is Rs. 25,000 to 50,000 per acre. There are 20 tractors, 5 threshers and 4 spray machines available for agriculture and owned by the farmers of this village.

Here an interesting discussion took place during the meeting. Almost all the participants of the meeting informed that they are defaulters of different banks. They had taken loans for agricultural inputs but did not repay it. It seems that a large number of farmers in this Chak are agricultural loan defaulters.

### **Landholding Pattern**

There are only 186 households who own land from one to five acres, 30 households own from five to 12.5 acres, 31 household own from 12.5 to 25 acres and four household own above 25 acres. Rests of the households are landless and working on fields owned by others.

### **Livestock**

The villagers own buffaloes, cows and goats. Details are given in table. Animal production is mostly used for household consumption and villagers are exporting its milk to milk processing companies. Most common diseases are Foot & Mouth for cows and buffaloes, cough for goats which often lead to death. There is no health facility for livestock available in the village.

Type of animals	Number	Breed
Buffaloes	500	Neli
Cows	50	Desi& Waleti
Goat	1,500	Tedi & Desi

### **Education**

There is one primary school for boys and one girl's elementary school is situated in the village where total 295 children are enrolled. Out of total, 125 are girls and 170 are boys. The respondents estimated that about 2% children are out of school. The overall literacy ratio in the village is 47 percent. There are five male teachers and 10 female teachers are teaching in both school. Children continue their elementary and high education form Sheikh Fazil which is 5 Kilometers away from the village.

### **Health**

No health facility is available in the village. There is no organization working on health related issues. If some one gets sick, they go to the local quacks. The nearest formal health centre is in Sheikh Fazil and Tehsil Civil Hospital which is 16 Kilometers away and it takes about half an hour to reach there. Two lady health

visitors are working in this village. There are also two Traditional Birth Attendants serving the community, but both are untrained.

### **Physical Infrastructure**

Most of the streets are paved with bricks soiling. The landline telephone facility is available in the village and most of people also have mobile phones. Participants estimated that there are only four households out of 365, where the electricity is not available. There are four watercourses; all are half lined and 20 private tube wells are operational for irrigation purposes. The water table in this village is 30-35 feet. Hand pump is the source of drinking water in the village and quality of water is good, almost fifty percent households have piped, motorized pump or tubewell for drinking water. Out of 403 households, 151 (38%) have their latrines connected with public sewerage system, 223 (55%) have pit-latrines and rest of them have no latrines in their houses.

## Chak 405 EB

May 12, 2008

### Participants

Ehsan Subhani s/o M. Iqbal, Munshi M. Hussain s/o Ghulam Muhammad, Ilyas Ahmed s/o Nazir Ahmed, Ejaz Ahmed s/o Mumtaz Ahmed, Zahid Hameed s/o Abdul Hameed, Sh. Subhani s/o Iqbal, Naveed Subhai s/o Iqbal, Mukhtar Ahmed s/o Tufail, Allah Ditta s/o Irum Din, Aashiq Ali s/o M. Tufail, Musawar Saeed s/o Abdul Ghafoor, Sardar Ahmed s/o Tufail Ahmed Joiyo, Sadiq Ch. s/o Badar Din, Mukhtar Ahmed s/o Sardar Ahmed, M. Jabbar s/o Sardar Ahmed, Nawaz Ahmed s/o Sardar Ahmed

### Topography and Location

Chak 405/EB is situated on main Burewala to Chichawatani road and is 17.5 kilometers away from the Tehsil Headquarter Burewala. It takes about 40 minutes to reach the village. A road, 16 Kilometers metalled and 3 Kilometers sub-metalled is leading to the village. The village is situated on the right bank of Pakpattan canal. The land of village is fertile with a beautiful landscape.

### Housing Structure

There are 230 houses categorized as *packa* houses and remaining 170 houses are laid in *katcha* and *semi-packa* type.

### Demography and Social Setup

The village comprised of 451 households and major biradarries are Gujar (25%), Arrain (25%), Rehmani (25%), and remaining 25% are related to Kharal, Sheikh and Jolaha biradary. Total population of village is 3,135 while male population is 1,671 and 1,464 are female. Major languages spoken in the village is Punjabi and Urdu. All housing units' density is very high and nit scattered.

Name of Tribe	No. of Households
Gujar	113
Arain	113
Rehmani	113
Others	112
<b>Total</b>	<b>451</b>

Youth and children are very eager to play games like cricket, volleyball, football and kabbadi. A young man of this Chak Mr. Subhani Gujar is playing kabbadi<sup>4</sup> at national level and representing Pakistan in other countries.

### Local Dispute Resolution Mechanism

The villagers have formed a social welfare committee named *Masjid Kath Biradary* consisting of 11 members. Each member of this welfare committee is representing his biradary. All disputes are often resolved by the committee. Overall the village is very peaceful and there are not many disputes.

### Women Scio-economic Status

Women are mostly involved in routine household activities and livestock raring. Participants of FGD informed that in about 20% household women are directly involved in agriculture, and are contributing their equal share by working in the fields.

---

<sup>4</sup> In the team, or transnational, style of kabbadi, two teams of seven players occupy opposite halves of a field of 12.5m × 10m. Each team has five supplementary players that are held in reserve. The game is organized into two 20-minute halves, with a five-minute half-time break during which the teams switch sides.

Mobility of women belonging to remaining 80% households is very low. Women have nothing to say in the process of decision making or validity of decision made.

### Economic Situation

The economy of this Chak is based on agriculture and 75% households are directly or indirectly involved in farming. There are 100 persons employed in private & government departments like police, education and army, 150 are unskilled workers, 30 are skilled workers, and rests of them are associated with farming. Some persons are in Saudi Arabia and Dubai for employment. Some households are also involved in carpet weaving. In these households women as well as men are doing this business. Most of them are working for a trader, who gives them Rs. 125 per day and each day's labour is about 9 to 10 hours.

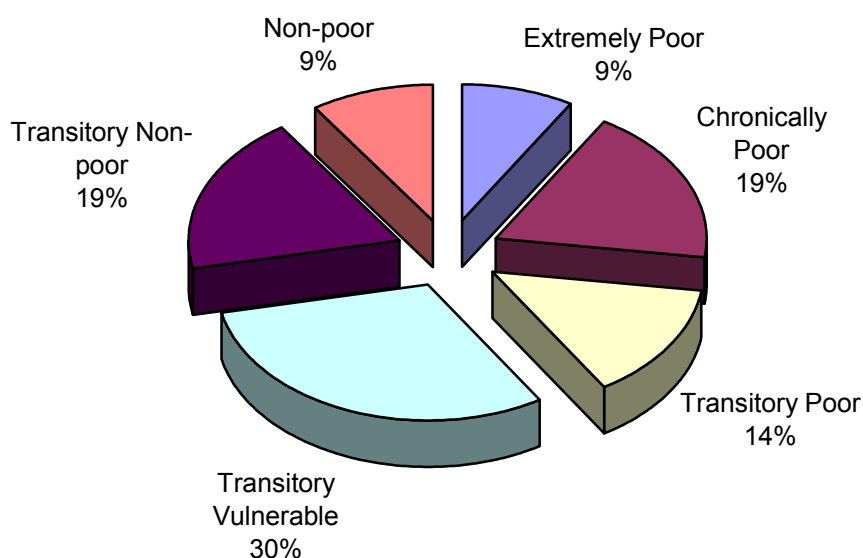

Major import of the Chak is food items, clothes and agriculture inputs and their major exports are wheat, maize, sugarcane, cotton and rice.

### Poverty Profile

According to the PPI survey, the village households can be categorized in to six categories as shown in the following table.

Poverty Band	Number of household
Extremely Poor	39
Chronically Poor	84
Transitory Poor	63
Transitory Vulnerable	137
Transitory Non-poor	86
Non-poor	42

## Agriculture

The total area of this Chak is 1,000 acres; all land is fertile and cultivated by the farmers. Respondents informed that there are 21 farmers who own 12.5 to 25 acres land, 85 own 5 to 12.5 acres, 175 own up to 5 acres of land and other households are landless. Landless families are working as unskilled labor by working on others field. Farmers are also use pesticides and fertilizers for enhancing the crop yield production.

Agriculture machinery is available for farming, 60 tractors, 6 thrashers, 6 spray machines, 50 cultivators, and 3 planters are owned by the farmers of this village. Major crops are wheat, maize, cotton, sugarcane and rice and yields from the major crops is given bellow:

Crop	Yield	Seed
Wheat	25-30 mounds / acre	Watan, Inqilab and Bhakkar
Maize	80 mounds / acre	Hybrid seeds
Cotton	15-20 mounds / acre	BT 121
Sugarcane	700 mounds / acre	975 seeds

The villagers informed that yield from cotton crop is very low for the last 3 years and farmers are continuously bearing the loss from this crop. There are many fruit orchards of Kino owned by farmers. All fruits orchards cover 75 acres of the land and per acre earning from Kino is Rs. 40,000 to 50,000.

## Livestock

Mostly people have cattle. There are 500 buffaloes of Neli breed, 50 cows of Sahiwal and Desi breed and 700 goats of Desi and Tedi breed are owned by people of this Chak. Major diseases of the livestock are Munh Khur and Gul Ghoto for buffaloes & cows. The health facility for livestock is not available there is no person for vaccination and treatment of animals in this chak. People moved to Chak 409/EB for treatment where a veterinary doctor is available who charge Rs. 200/- for consultancy.

Livestock products are used for household consumption and many households are also selling milk to different companies collecting the milk from this chak by paying Rs. 16/- per litter.

### **Education**

The educational facilities in the Chak are comparatively better because there is one high school for girls and girls belonging to nearby villages are also studying in this school. There is also one Government Primary school for boys. There are 6 teachers in boys primary school and 15 teachers are teaching in girls high school.

The participants estimated that there are 400 boys enrolled in boys' primary school and approximately 500 girls are enrolled in girls' high school. About 10% of the children in the school going age are still out of school.

### **Health**

There is no health facility provided by the government in the village. People are suffering from the unavailability of health facility. They mostly travel to Tehsil Headquarter Hospital Burewala which is 18 Kilometers away or Sheikh Fazil for taking treatment by traveling of 2 Kilometers.

2 lady health visitors are working for awareness of health related issues, family planning and vaccination of child. Villagers showed their satisfaction with working of both LHVs. Two experienced traditional birth attendant female are also serving in the Chak and both are untrained.

### **Physical Infrastructure**

Most of the streets of this Chak are paved and there are only two unpaved streets. There is landline telephone facility is available. The trend of having cell phones is also high like other villages. Electricity facility is available to almost all households. There are three watercourses for irrigation and all watercourses are half lined. There are 7 tube-wells owned the farmers who belong to this Chak.

The water table is 35 feet below earth level in this area. There is water supply facility available for drinking water purpose. Drinking water quality is not so good which creates health related problems. About 78% have access to drinking water through tap, motor or tubewell, rest of them use handpump or other similar sources. There is facility of sanitation with open drains system is available and all drainage water's direction is to open land outside the Chak. About 28% houses do not have latrine facilities.

## Chak 407 EB

May 10, 2008

### Participants

Dilawar ali s/o Noor Muhammad, Zafar Iqbal s/o Ali Muhammad, Muhammad Manzoor s/o Abdul Ghafoor, Nazir Ahmed s/o Nizam, Shahadat Ali s/o Noor Muhammad, Muhammad Akmal s/o Muhammad Salim, Nazir Ahmed s/o Muhammad Shafi, Abdul Ghafoor s/o Fazal Karim, Farooq Javaid s/o Mushtaq Ahmed

### Process

We reached to the village at 08:30 am where the regular CO meeting was in process. After the CO meeting we requested to the participants to remain there and provide us information about the village.

### Demography

The village is inhabited by 210 households with a total population of 1,421. Male population is 740 while 681 are female.

### Topography, Housing Structure and Location

The total distance between the Tehsil Headquarter and Chak 407/EB is 20 kilometers. Normally the village can be reached within 40 minutes. The road leading to the villages is 13 Kilometers metalled. The whole village is situated on plain surface adjacent to the Pakpattan canal.

About 25% houses in the village are *Katcha* with structure made of mud and bushes. 60% houses structured as *Packa* and remaining are categorized as *semi-packa* houses.

### Social Setup

Main language spoken in the village is Punjabi and Sarayki but people can also speak Urdu. The village comprises of 210 households and major biradarries are Sheikh (34%), Kharal (13%), Arain (14%), Jatt (14%), Sial (14%) and Rana (11%). Most of routine and serious disputes are resolved locally by community elders based on biradary in traditional *Panchayat*.

Name of Caste	Number of Households
Sheikh	71
Kharal	27
Arain	29
Jatt	29
Sial	29
Rana	23
<b>Total</b>	<b>210</b>

### Women Scio-economic Status

Women are more actively participating land based and home based economic activities. They are helping their families in farming, harvesting, livestock rearing, tailoring and embroidery for their own.

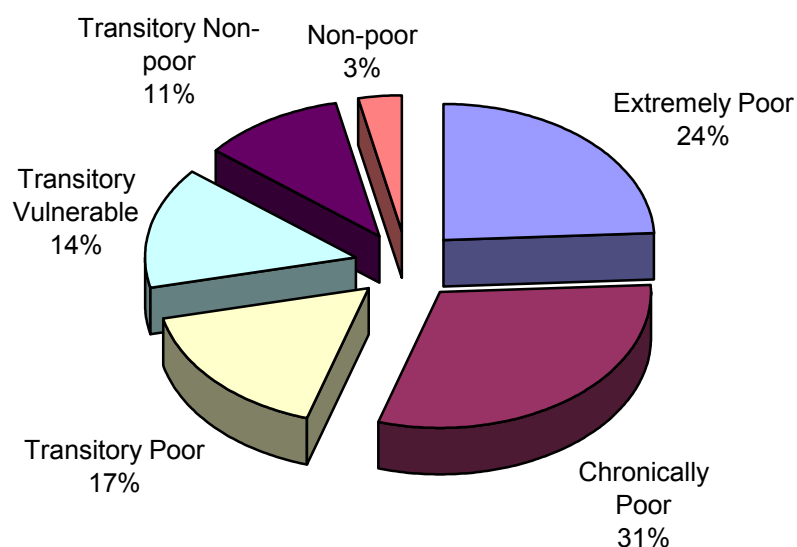

### Economic Situation

The participants informed that 70 persons are employed in government and private sector. Most of them are working in factories and some are teaching in the government schools. The economy of the 70% population is directly or indirectly based on agriculture. Five persons are skilled workers, and rests of them are involved in farming and working as unskilled laborers on other's fields. People mostly import items of seed, fertilizers, pesticides and daily use items and export items are cotton, wheat, sugarcane and maize. Three women are available who are doing tailoring and embroidery work in the village to increase their household income.

### Poverty Profile

According to the PPI survey, the village households can be categorized in to six categories as shown in the following table.

Poverty Band	Number of household
Extremely Poor	51
Chronically Poor	64
Transitory Poor	35
Transitory Vulnerable	30
Transitory Non-poor	23
Non-poor	7

### Landholding Pattern

The total area of the village is 900 acres and all the area is being cultivated by the farmers. All land is cultivable and fertile. There are 55 households who own less than five acres land and 15 households who own above 5 and less than 12.5 acres. There are 10 households who hold above 12.5 acres of land. While 130 households do not own agricultural land and work as unskilled labor on others' fields. There are 28 tractors and four thrashers available in the village for farming purposes.

Major crops of the area are wheat, cotton, sugarcane and maize. Most of household has some land for farming. The fodder crop constitutes all portion of irrigated land. There are 28 tractors and 4 thrashers available in the village. Yield of major crops is given in following table.

Crop	Yield	Seed
Wheat	30 maunds / acre	Watan and Uqab
Cotton	15 maunds / acre	BT 121/ 46/ 96/ 93
Sugarcane	600 maunds / acre	CP 34

### Education

There are two government schools, one for boys and other one for girls. There are 130 students enrolled in these schools, 80 boys in boys' primary school and 50 girls in girls' primary school. There are 2 female teachers in girl school and in boys school

there are three male teachers. The villagers also informed that children are going 4 kilometers away for their elementary and secondary education in Chak 422/EB.

After the meeting we also visited GBPS 407/EB and met with Mr. Bashir. This was NRSP project school under PESRP School Council Capacity Building Project (SCCBP). Under this project, school council managed the missing facility to the school i.e. Toilet Block and furniture for children. The quality of the furniture and toilet building was good. We also observed that school building has no boundary wall. We found the total enrollment is 102.

### **Health**

The community mostly depends on health facilities available in Tehsil Headquarter Hospital Burewala. It takes about 40 minutes to reach there. No lady health worker is working in the village and also there is no TBA. The participants informed that for maternal cases they called TBA from adjacent village Chak 112/EB. There is no other organization working on health related issues in the area.

### **Physical Infrastructure**

There are paved streets in the village. Mostly people have mobile cell phones for communication. Electricity is available to approx. all households of the village. The water table is on 350 feet depth below earth surface and therefore 4 tube wells are available for most feasible way of irrigation water. Latrine facility is available in 85 houses and remaining 60% houses have no latrine facility. Similarly 39% people have piped, motor or tubewell for drinking water.

## Chak 409 EB

May 8, 2008

### Participants

M. Ramzan s/o Ali Muhammad, M. Anwar s/o M. Iqbal, M. Arshad s/o Deen Muhammad, Haji M. Siddique s/o Haji Yousaf Ali, Farzand s/o Haji M. Siddique, Bakhtiar s/o Sher Muhammad, M. Tahir s/o Ghulam Dastgir, Maqbool Bhatti s/o Boota Bhatti, Haji Tufail s/o Barkat Ali, Zulfiqar s/o Abdul Andul Khaliq, Mehmood s/o M. Tufail, M. Ashfaq s/o nGhulam Rasool, Niamat Ali s/o Shah Muhammad, M. Sahaffique s/o M. Saddique, M. Shabbir s/o Abdul Hameed, M. Haider s/o Shah Deen, M. Sharif s/o Faqir Muhammad, Faqir Muhammad s/o Noor ud Deen,

### Process

We reached Chak 409/EB around 3:00 pm where meeting was arranged in girls primary school. After our arrival in the village an announcement was made on the mosque's loudspeaker and people started coming in within few minutes. When about 25 persons were available we started FGD.

### Location and Topography

The village is situated 15 kilometers away from the Tehsil Headquarter Burewala. It took us about 25 minutes to reach the village and a metalled road leads to the village. It is situated on the main road (Burewala to Chichawatani). Village is located on the left bank of 5 L minor (*rajbah*). The whole village is situated on plain surface and water courses are spread throughout the fields.

### Demography and Social Trends

Main language spoken in the village is Punjabi but people also can speak Urdu. The village comprises of 223 households and 1,565 people include 846 men and 719 women. The major biradarries are Arain (70%), Gujjar (12%), Bhatti (12%), and others (6%) include Lohar, Tarkhan, Kumhar, Mochi etc and the average household size is 7.02 in this village. Most of routine and serious disputes are resolved locally by community elders.

Name of Tribe	No. of Households
Arain	156
Gujjar	27
Bhatti	27
Others	13
<b>Total</b>	<b>223</b>

### Housing Structure

Nearly all houses are *Pacca*, made of cemented walls and pre caste roofs. There are some houses made only of mud and raw bricks and roof is covered by bushes renovated with mud. There is sewerage system available in the village. As there are many castes inhabiting the village, therefore some households are living in the form of small clusters in different locations.

### Women Social Status

Women are mostly involved in household chores like washing clothes, livestock raring and embroidery work. But they are doing this work only for their own use.

There mobility is also very low and they participate in different ceremonies like marriage, funeral and child birth.

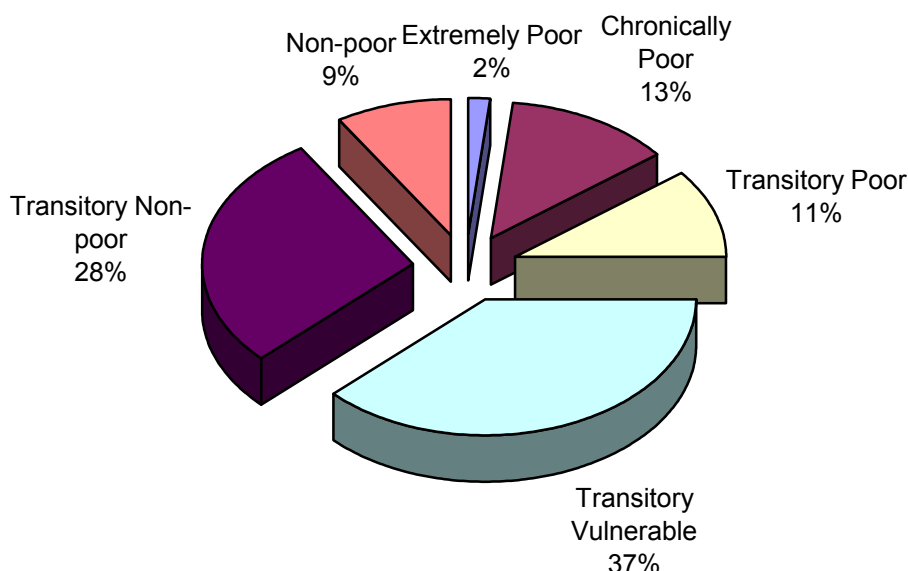

### Economic Situation

All households of this village are directly or indirectly involved in farming. There are 65 persons employed in government/ private departments, eighty are unskilled workers, 2 are skilled workers, and rests of them are involved in farming and working as unskilled laborers on other's fields. Major import of the village/chak is food items like cooking oil, clothe and agriculture inputs and their major exports are sugarcane, cotton and wheat.

### Poverty Profile

There is no formal social protection net available for vulnerable and destitute. The local people help the destitute in the form of Zakat or provide food grains. However, this support is minimal. According to the PPI survey, the village households can be categorized in to six categories as shown in the following table.

Poverty Band	Number of household
Extremely Poor	4
Chronically Poor	28
Transitory Poor	24
Transitory Vulnerable	84
Transitory Non-poor	63
Non-poor	20

### Agriculture

Total land of the village is 1,350 acres which is all cultivable, out of which all land is cultivated. Nearly all the households of the village are involved to agriculture. There are 134 households who own agriculture land from one to five acres, 47 households own from five to ten acres. No household is holding above 12.5 acres land. Rests of the 42 households are landless and working on fields owned by others or doing small scale business.

Some agriculture machinery is available for farming, 12 tractors and 5 thrasher are owned by the persons belonging to this village. Some portion of the land is not

cultivable because of salinity problem. Therefore Major crops of the village are wheat, sugarcane and cotton. Average yield from the major crops is given bellow:

Crop	Yield	Seed
Wheat	25 maunds / acre	Watan and Bhakkar 202
Cotton	8-10 maunds / acre	BD 121/ 96
Sugarcane	350 maunds / acre	CP 34

There are some fruit orchards of Kino, mango and guava. All fruits orchards cover 100 acres of land and the earning from Kino is Rs. 50,000 per acre. Farmers also use pesticides and fertilizers for enhancing the crop yield production but they complained about high costs of inputs.

### Livestock

The villagers own buffaloes, cows, sheep and goats. Details are given in table. Animal production is mostly used for household consumption and villagers are exporting its products. Mostly the household sells the milk production to the milk processing companies on Approx. Rs. 17/- per litter. Most common diseases are *mon khur* and *gal goto* for buffaloes & cows, cough and scab for goats which often lead to death. The health facility for livestock is available in the village. A local trained livestock veterinary worker is providing assistance regarding livestock health problems.

Livestock	Number
Buffaloes	300
Cows	50
Goat	200
Sheet	15

### Education

There is one primary school for girls in the village where 150 children are enrolled and one high school for boys having enrollment of 450 children. The respondents estimated that about 10% matriculate from high school join College for secondary education. The overall literacy ratio in the village is only 37 percent. There are three teachers in girls primary school and fifteen teachers are teaching in the boys high school. There is no elementary/ high school for girls in the village.

### Health

Basic Health Unit (BHU) facility is available in the village and managed under the supervision of Punjab Rural Support Programme (PRSP). Staff is available which includes a doctor, paramedic staff. All community members showed their satisfaction to getting health facilities from BHU. The second nearest formal health centre is in Tehsil Civil Hospital Burewala which is 15 Kilometers away and it takes about one

and half hours to reach there. There are three LHVs available for health awareness in the village and also three experienced TBA covering the village.

### **Physical Infrastructure**

The electricity facility is available to all households and all streets are paved. There are some people having mobile cell phones and also landline telephone facility is available. Water table is 70 feet and the quality of drinking water is very poor. There is a drinking water supply scheme which was provided by the District Government. Presently the scheme is not functioning because of poor quality of construction (pipes are leaking) and power breakdown. The source of water supply is from the main canal where a tubewell has been installed. All the villagers contribute in operation and maintenance of the water supply scheme by collecting Rs. 100 from each household and it is collected when the electricity bills are circulated. They have also hired a person to look after the scheme, switch on/off the motor at the tubewell etc. But as the scheme is not working properly, villagers are facing great difficulty and their top priority need is also water supply. There is also one drainage scheme, a disposal centre also exists but it is again not working. About 80% households are connected with the water supply scheme but at present they are also facing great hardship. Similarly more than 90% households have latrine facility in their house.

### Process:

We reached to the village around 8:45 am where regular meeting of CO Al-Akbar was in process. After the meeting we asked the participants to remain there and provide us information about the village.

### About the Village

Chak 411/EB is situated about 16 Kilometers from the Tehsil Head Quarter Burewala. It is on the main road (Burewala to Chichawatani). Village is located on the left bank of Pakpattan distributory (*rajbah*). It population is scattered, majority of the families have constructed their houses in their own agricultural land. There are few big settlements, namely Dera Gujran, Dera Numberdar, Dera Mohabbat Khan and the basti (where meeting was held).

### Demography

Total number of households residing in the village is 246 having population of 1,719. Male population is 871 while female population is 848 and the average household size is 6.99.

### Topography and Housing Structure

The landscape of the village and earth surface is plain having lush green fields. 164 houses are made of cemented walls and pre cast guarder roofs and remaining 56 are kacha houses.

### Social Structure

Major languages spoken in the area is Punjabi and Urdu. Major tribes are Joya (40%), Bhatti (30%), Arrain (15%), Gujar (10%) and others (5%) include Lohar, Tarkhan, Kumhar, Mochi etc. The disputes are often resolved internally by the elders of the biradari. Other forums include Numberdar, or political representatives However, in serious cases, they also resolve

Castes /Biradaries	No. of Households
Joya	98
Bhatti	74
Arrain	37
Gujar	25
Others	12
<b>Total</b>	<b>246</b>

to the formal courts but this rarely happens in this village. Women are mostly involved in households' activities, livestock rearing and land based farming.

### Economic situation

The financial backbone of the village is agriculture. Twenty persons are employed by different private and government institutions, eight persons are running small shops of general items, six are foreign employed. Very few persons have skilled based work, there are 3 electricians in the village. All the remaining community members are either engaged with agriculture or working on other's fields or as unskilled laborers. Major exports and imports of the village revolve around agriculture produce i.e, wheat, sugarcane, cotton, milk, citrus fruit and guava.

### Poverty Profile

According to the PPI survey, the village households can be categorized in to six categories as shown in the following table.

Poverty Band	Number of household
Extremely Poor	6
Chronically Poor	54
Transitory Poor	55
Transitory Vulnerable	62
Transitory Non-poor	40
Non-poor	29

### Agriculture

All households are related to agriculture directly or indirectly but the landholdings are very small, so farmers are not very well-off. Major crops of the village are sugarcane, wheat, cotton and maize. Yield of major crops is given in following table.

Crop	Yield	Seed
Wheat	25-30 mounds / acre	Inqilab 91 and Watan
Cotton	6 mounds / acre	34 and 77
Sugarcane	650 – 700 mounds / acre	CP 400

Some farmers also have fruit orchards of Kino and Guava. Farmers earning from Kino is Rs. 25,000 per acre and income from guava is Rs. 10,000 per acre.

Total land of the village is 1,000 acres, out of which 75 acres is uncultivable, about 15 acres is not cultivated because of salinity problem. Approximately all cultivable land is cultivated. There are total 153 households who own a piece of land. Ten tractors and 5 threshers are available in the village. The land holding pattern is given as under:

No. of Households	Land Holding (Acres)
156	up to 5 acres
10	more than 5 acres
80	No Land

## Livestock

Livestock rearing is common and almost every household has livestock. Following table shows estimated figures of livestock in the village.

Livestock	Number
Buffaloes	400
Cows	200
Goats	500
Sheep	50

In addition, there are 15 poultry farms and one fish farm.

## Health

Basic health facilities are not very good. Nearest government health facility is in Chak 409 EB, about one kilometer away. Staff is available which includes a doctor, paramedic staff. The BHU is managed by the Punjab Rural Support Programme. However, many people still opt private clinics run by quacks at Londi masjid bazaar as it is nearer. There are three Lady Health Visitors working in the village. There is no traditional birth attendant. Poor families still call the TBA from adjacent village in case of delivery cases. In case of serious ailment, majority goes to the Tehsil Headquarters Hospital in Burewala which is about 12 kilometers away. Although people do not have a good impression of the BHU but when visited, our team found it working very well, doctor was available, medicines were being provided and other staff was also available. General condition of the BHU is also good as it is well managed by the PRSP.

## Education

There are three schools in the village. One is Government Boys Primary School 411E.B, Government Girls Elementary School and Government Girls Primary School Basti Gujran. The participants estimated that 200 boys are enrolled in GBPS, 175 girls in GGES and 50 girls are in GGPS. There are two teachers in girls primary school, six teachers are teaching in girls elementary school.

Both girls' schools are affiliated with NRSP under PESRP School Council Capacity Building Project. Under this project school council provided missing facilities for the improvement in school environment for children. In GGPS 411/EB, boundary wall raising, electrification, furniture and water tank provided to the school and the cost of all these projects were Rs. 67,827. While constructed one classroom, toilet block, and provided drinking water facility to the GGES with a total cost of Rs. 345,052. Teaches of both girls schools were trained by NRSP and equipped with latest teaching techniques.

In addition, there are two private schools namely Pak Madina Middle School, Landoo Masjid and Ayesha Public Middle School. These schools have enrollment of 115, and 110, respectively.

## Annex 1 Poverty Scorecard

### غربت کی درجہ بندی کی دس علامات کا سکور کارڈ

نام (Respondent): \_\_\_\_\_ ولدیت ازوجیت: \_\_\_\_\_ نام تنظیم: \_\_\_\_\_ تنظیم میں حیثیت (ممبر، مینیجر، صدر) \_\_\_\_\_
