Introduction

Background

The Situation Analysis of Union Council Bandhi is part of an ongoing initiative by NRSP to identify the poorest of the poor; using Pakistan Poverty Scorecard. Under this initiative NRSP is using the Government of Pakistan's definition of Poverty (in which whole population of the country is divided into four bands (called poverty bands) and trying to focus on the bottom three segments i.e. extremely poor, chronically poor and transitory poor groups.

Objectives

Main objectives of the study are following.

- 1) Information collection about the general socio-economic condition in the villages
- 2) Identification of the poorest households

Methodology

For the study purpose seven among ten revenue villages of the Union Council Bandhi were selected. Information was collected at two levels, i.e., village and household. For identification of poor households, the Pakistan Poverty Scorecard¹ was used as it has proven to be most appropriate available tool. As this exercise required collection of information from each household of the Union Council, so a team comprising of 13 persons was given the task to do the household census using the Pakistan Poverty Scorecard. One team member was NRSP employee and remaining 12 youth were hired on daily wages specifically for this activity.

Before starting the data collection exercise, a brief training session was conducted by Mr. Sharafat Hussain (Team Leader, Nawabshah) in NRSP Field Unit Nawabshah on 5th October, 2009. After the training each individual was given the scorecard formats for data collection. Every evening, completed formats were collected from the data collection team and randomly picked formats were re-checked every following day to ensure that information is collected properly.

For village level information collection standard NRSP Situation Analysis guidelines were followed which includes Focused Group Discussions, transect walk and other PRA tools/techniques. A standard checklist was used to ensure all aspects of the socio-economic conditions are covered. In addition, secondary source data was also collected which mainly comprises of basic profile of the Union Council from the UC office and Census Report 1998. According to the Secondary source data total population of the Union Council is 13,226 in 1,945 households. Details are given in the following table.

#	Name of Revenue Village/ Mouza/ Deh	Population			Households
		Both Sexes	Male	Female	
1.	Deh 60-Nusrat	1,311	693	618	193
2.	Deh 61-Nusrat	1,199	634	565	176
3.	Deh 62-Nusrat	1,143	604	539	168
4.	Deh 63-Nusrat	652	345	307	96
5.	Deh 64-Nusrat	1,544	816	728	227

¹ Developed by Mark Schreiner, Senior Scholar, Washington University. The scorecard is based on the Pakistan Integrated Household Survey 2001 and it helps in the identification of the household living below poverty line.

#	Name of Revenue Village/ Mouza/ Deh	Population			Households
		Both Sexes	Male	Female	
6.	Deh 65-Nusrat	4,854	2,567	2,287	714
7.	Deh 66-Nusrat	2,523	1,334	1,189	371
Total		13,226	6,994	6,232	1,945

Summary of Socio-Economic Findings

Nawabshah is situated along the left bank of Indus River near Sakrand Tehsil. District Nawabshah comprises of five Talukas namely Nawabshah, Sakrand, Daurr, Daulat Pur, and Qazi Ahmad. Nawabshah was declared a District on 1st November, 1912.

Introduction to the Area

Union Council Bandhi comprises of seven *Deh* (revenue villages) with 83 small and large settlements. The UC Bandhi situated 5 and 23 kilometers away from the Taluka & District headquarter respectively. The area of this UC covers one side of the Nawabshah Sukkar road. The whole UC covered with plain

area with fertile land. It has one of the best cultivated lands which are suitable for cotton, wheat and other agricultural crops. Its land is irrigated with the fertile water of River Indus. It has a big canal system associated with Rohri canal. But majority of lands are barren due to water salinity, logging and in some areas unavailability of water. On the opposite side of the road Amerji Union Council is located. Communication network of roads linking all villages of Union Council is very good. But many roads are not black top.

The climate of the area is hot and dry. The summer season starts from April and continues till October. May, June and July are the hottest months. Dry, hot and dusty winds are common during summer. The winter season lasts from November to March. December, January and February are the coldest months. Rain fall is mostly during monsoon from July to September. During winter season there is very little rain. Only 46.9 percent of the total land of all 7 villages is being cultivated.

Village wise Area (in acres)

Sr.	Name of Mouza/ Village	Cultivated	Area in Acres	%
1	Deh 60-Nusrat	475	950	5.0%
2	Deh 61-Nusrat	900	1,600	9.4%
3	Deh 62-Nusrat	1200	2,000	12.6%
4	Deh 63-Nusrat	400	1,300	4.2%
5	Deh 64-Nusrat	400	900	4.2%
6	Deh 65-Nusrat	200	1,300	2.1%
7	Deh 66-Nusrat	900	1,500	9.4%
Total		4675	9,550	46.9%

Demography

According to Population Census Union Council Bandhiin 1998, total number of households in the Union Council was 1,945 with a population of 13,226 persons including 6,994 male and 6,232 female. Average household size was 6.8 according to census report of 1998. However, during this Situation Analysis information for the Poverty Assessment was collected from each household and according to this information the present number of household in this Union Council is 2, from selected seven revenue villages, whereas the projected number of household were 2,565. Using the average household size of each village (given in Population Census of 1998) the present population of the Union Council is estimated at 16,671. Village wise present status is given in the following table.

Rev. Village	Households	Total Population	Male	Female
Deh 60-Nusrat	254	1,652	874	779
Deh 61-Nusrat	233	1,511	799	712
Deh 62-Nusrat	222	1,441	762	679
Deh 63-Nusrat	126	822	435	387
Deh 64-Nusrat	299	1,946	1,029	917
Deh 65-Nusrat	941	6,118	3,235	2,883
Deh 66-Nusrat	489	3,180	1,682	1,499
Total	2,565	16,671	8,816	7,855

Agriculture

The union council has an excellent record in the field of agriculture. It is the backbone of economy of the area. Every community member is directly or indirectly related to agriculture activities. The land is very fertile. Unfortunately 46.9 percent of the total land is under cultivation and the remaining area is not being cultivated due to water logging, salinity and continuously non-availability of the irrigation water from Rohri Canal. Its contribution of cotton used to be very high, but according to the local communities, average yield per acre is gradually declining for the last five years. Now the sugarcane and wheat is the major crop of this area. Rice and fruits especially banana and mango is also grown by large number of farmers. Fruit orchards especially banana has become popular with the farmers because of comparatively higher income averaging Rs. 90,000 per acre.

Rohri canal is the main source of irrigation in the Union Council. Following is the average per acre yield of different crops:

Crops	Per Acre Yield Production in UC Bandhi
Wheat	35-45 mound per acre
Cotton	15-22 mound per acre
Sugarcane	500-600 mound per acre

Farming and Landholding Pattern

Mostly major agriculture land of this area owns by some people whose are financially most influential and strong in this area. 18.09% of farmers have land holding less than five acre. Therefore they can not invest on purchasing agriculture machinery for their crops. The land holding pattern of whole union council is given in following table,

No. of Households	Percent	Land Holding (Acres)
520	18.09%	up to 5 acres
488	16.98%	5-12.5 acres

No. of Households	Percent	Land Holding (Acres)
304	10.58%	12.5-25 acres
86	2.99%	25-50 acres
26	0.90%	More than 50 acres
1,450	50.45%	No agricultural land

The availability of improved quality seeds, fertilizers, insecticide and pesticide especially its cost is a big concern for majority of the small farmers. They complain that even with higher prices offered by the government, they are not able to get much income because of high prices of inputs. There is one laboratory for soil testing in Nawabshah.

Livestock

In this area, major livestock population includes buffaloes, cows, goats and sheep. After agriculture, income from sale of animal is the second major source of income. There is great livestock potential to increase household income through giving awareness to farmers. Major livestock diseases are foot and mouth (*Moun khur*) and *Gal ghotto*. There is no single veterinary clinic or available in whole the Union Council. The livestock population² in UC Bandhi is given as under:

Livestock	Common Breed	Total Population
Cows	Local Sindhi	1,880
Buffaloes	Local Sindhi	3,400
Goats	Local Sindhi Desi	5,700
Sheep	Local Sindhi Desi	1,120

Buffaloes and cows account major proportion of total live stock and to be taken care of. The area has much potential in livestock sector. Lack of basic facilities, proper and timely vaccination, adequate nutrition, guidance regarding marketing and transportation of livestock are the major issues to be addressed.

Education & Health

an education sector, Union Council Bandhi is very poor. The education facilities are not in good condition. In most of the villages, there is no high school for boys and girls. According to villagers, total number of active primary schools for boys is 38, while 1 girl's primary school is working there along with one boy's high school. According to situation analysis report no primary school found non-functional. The community intimates that there are total 44 teachers are teaching in above mentioned schools, including 43 male and only 1 female. Higher education especially for girls is difficult to access especially for poor families as they cannot afford transportation costs.

Droop out ratio is almost 70 to 80 percent due to many reasons like high cost of education, non availability of schools and transportation costs. More importantly most of teachers are not regularly attending schools for years. That is why large number of girls is enrolled in boy's primary schools. Moreover teachers are teaching with traditional methods. A very small number of children travel to Nawabshah for elementary, secondary and higher education. Parents are very much concerned about education of their children.

² Calculated form the village situation analysis report

A major intervention like PESRP (Punjab Education Sector Reforms Programme) School Council Capacity Building Project is required to ensure the quality education and providing missing facilities through mobilizing local community members including parents of the children and teachers. Quality education can be ensured by implementing new teaching techniques through training of the teachers. Missing facilities include boundary walls, drinking water facilities, toilets, classroom, electrification and repairing of school building which can improve the environment for children. New buildings have been provided in some areas but there is no staff, villagers reported.

The status of existing Government Primary schools in the Union Council in the following table. According to the information collected from field (in October 2009) the total number of primary schools is 39 and almost all are functional. Details are given below.

Sr #	Revenue Village	GBPS	GGPS	Total
1	Deh 60-Nusrat	6	0	
2	Deh 61-Nusrat	4	0	
3	Deh 62-Nusrat	5	0	
4	Deh 63-Nusrat	0	0	
5	Deh 64-Nusrat	12	0	
6	Deh 65-Nusrat	3	1	
7	Deh 66-Nusrat	8	0	
	Total	38	1	39

According to Situation Analysis report, not even a single health institute either from govt. or private is present in the surveyed area so no medicine as well. Family planning facilities are available in these revenue villages of the whole Union Council through LHVs and TBAs and providing satisfactory health awareness. Traditional Birth Attendants (TBAs) are mostly available in all the villages and all are untrained. High risk is involved to the mother and child during the delivery time.

Physical Infrastructure

A network of road is available which has facilitated the communication. The main Nawabshah bypass road is connecting the side-line of villages but roads leading to villages are not metalled. About 70% of the houses are *Kacha*, 15% are *Semi-Packa* and remaining 15% houses having *Packa* structure. Majority of the revenue villages have good quality water. Similarly only 4% households have latrines almost 14% and all of these connected to pit. Remaining 82% have no latrine facility in their houses.

22 Tube wells are available in all villages for irrigation some of Government owned tube wells are not functioning. Water table varies from 40 feet to 50 feet and in most areas quality of the water found good but in remaining it is of poor quality. Telephone facility is available nowhere, but mobile cells have been found almost everywhere. Mobilink, Warid, Ufone and Telenor connectivity service is available throughout Union Council. Almost 100 percent of streets are found unpaved in surveyed area. Electricity is also available to more than 90 percent villages, but slightly less than half of the households in these villages are paying electricity bills. Poor households are using electricity illegally.

Economic Situation

Agriculture and livestock is found to be the major economic activities in rural areas of UC Bandhi, employment, salaried persons, skills and unskilled laborers were also

found in all villages. A large number of persons are working on daily wages as unskilled labourers because they do not have any technical skills to find a better employment. The major enterprises in villages are only small grocery shops. The summarized detail of major occupational groups in UC Bandhi is as follows:

Occupations	Percentage
Agriculture	89%
Salaried persons	1%
Self employed	1%
Skilled labor	1%
Unskilled labor	8%

Discussion with the community members and general observation in the field area shows that there is great potential for vocational skills, as large number of literate persons are working as unskilled labourers, if this local potential is exploited then there are good chances that income levels of these persons can be significantly enhanced.

Important Institutions in UC Bandhi

- Union Council office
- One Post Office and sub-branches
- GBHS

NGOs and other organizations working in UC Bandhi

There is not any NGO is currently working in the surveyed area, although NGOs like NCHD, HDF etc are working in other areas of district Nawabshah.

Women's Socio-economic Status

Women are engaged in house based and land based economic activities, but their services are yet to be acknowledged. The reward for their services is either unpaid or low paid. However, besides their household's activities like cooking, cleaning and child care, they are working in fields, grazing livestock, collecting wood for fuel, cultivating/ harvesting crops and collecting fodder for livestock. Most women belonging to the minority castes are looking busy in the fields doing cotton picking, wheat harvesting, sowing/ hoeing, etc. to contribute in their household income.

Proper education facilities for girls are not available even at primary level. There has a lot to be done for improvement in women's literacy ratio in the union council. For family planning facilities and mother health care Lady Health Visitors are playing a vital role and largely community members are satisfied with their performance.

Nothing was found related with formal technical/ vocational skills activities for the women. There are some women learned skills from their own experiences and doing income generation activities in their areas.

Local Dispute Resolution Mechanism

The area was found very peaceful and not affected by serious conflicts or law and order situation. It was observed that 60% villages resolved their disputes by involving biradary elders and rests approach the formal legal course of action and court system. They bear heavy cost of formal legal action and lengthy procedures that usually ends with no results. Major disputes arise of land ownership, irrigation water and family matters.

Vulnerable and Destitute Groups

Poverty is deficiency of those things that determine the quality of life, including food, clothing, shelter and safe drinking water, but also "intangibles" such as the opportunity to learn and to enjoy the respect of fellow citizens. Ongoing debates over causes, effects and best ways to measure poverty, directly influence the design and implementation of poverty-reduction programs and are therefore relevant to the fields of international development and public administration.

In Union Council Bandhi the vulnerability throws itself in many forms, provoked by extreme poverty. It is difficult to differentiate among these groups because a person may overlap two or more categories. For example a poor person is working on others' fields but also having some physical deficiency or very aged or a widow. Broadly the destitute and vulnerable groups which need social protection can be divided into following groups:

1. Bottom Poor/ Minorities

According to poverty scorecard results, about half of the population is living below poverty line. This is the category of vulnerable who are living permanently and working on the others' fields. Children and women of the bottom poor community are more vulnerable to health risks. Many households in every settlement of the UC related with professions such as cobbler (*Mochi*), barber (*Nai*), laundry person (*Dhobi*) are also in vulnerable category and need safety nets for their livelihood.

2. Widows

Widows having no male adult / children to support them and having daughters, who are in the age of marriage, make another important category of vulnerable in this area. This category is a group of destitute may be only 1% of the total population yet need proper care and social safeguard for their continued existence.

3. Physically Disabled

Physically disabled community members are another category of the vulnerable and destitute class. This group, being not able to participate in any income generating activity, is always dependant on others. In every village such persons were found. They are blind, handicapped or suffering from chronic disease like TB. Although their number is very small (about 1%) still they need special attention and safety nets.

4. Haris

In our visit to different villages, it was found that about 89% of rural community in Nawabshah depends directly or indirectly on agriculture. About 50.5 percent of the community members do not own any piece of land and work on land owned by other farmers. They are called Haris. To keep a Hari is very common practice of the landowners in Nawabshah.

They are economically dependant on farmers or land owners. They and their family members which include children and women, all are working full time in fields but in return they get a minor chunk of production. In this area Haris are working on 50% share of production. This is relatively good category of Haris. They bear total cost of crop expenses which include cultivation, pesticides and insecticides, harvesting, transportation, irrigation, etc. They are doing all the labor work in the field and after harvesting getting 50% income in production.

Social Protection Safety Nets

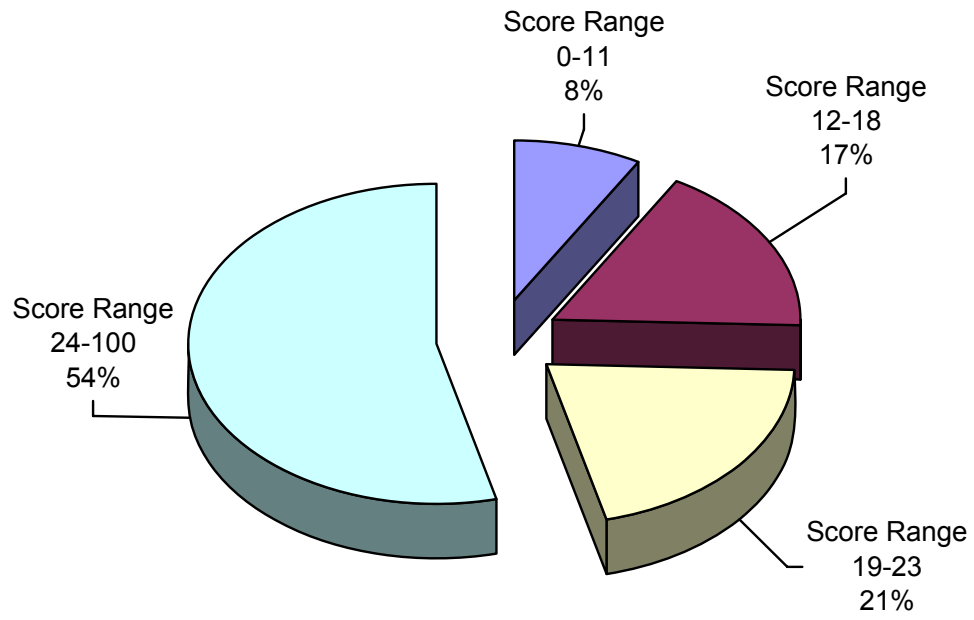

In all villages, the formal social protection was provided to destitute in the form of *Zakat*, *Nazrana*, *Fitrana*, charity, etc. Mainly relatives and community members are supporting the destitute and vulnerable community members. However, they are not in a position to take the responsibility with full diligence. Many measures and initiatives can be undertaken to provide relief to destitute, like grants for income generation activities, microfinance without interest, micro enterprise development, skills training, free education to children, skill centers for women or distribution of livestock and transfer its progenies to other destitute families.

Poverty Scorecard Results

To assess the poverty level in the seven villages, Pakistan Poverty Scorecard was used. Scorecard information was collected and analyzed for all 2,837 households in the Union Council Bandhi. According to the scorecard results, overall Poverty Rate in the Union Council is 15%. It is important to note that the overall poverty rate estimates the percentage of poor living below the poverty line or in other words "it is the average of the estimated poverty likelihoods of individual household". However, in order to target particular groups for specific intervention, it is important to decide a cut-off and label potential participants with score at or below a targeting cut-off in respective categories (as decided). Based on NRSP's experience of testing the scorecard in more than 30 districts, NRSP decided following cut-offs to identify people in different categories, these are

Category	Score Range
Extremely Poor	0 – 11
Chronically Poor	12 – 18
Transitory Poor	19 – 23
Non Poor	24 – 100

The purpose was to identify all households that fall into 4 different poverty bands. According to the scorecard results, 229 households (8%) are extremely poor, 483 households (17%) are chronically poor, 573 (21%) are transitory poor and 1497 (54%) are non-poor as shown in the following figure:

Each category wise number of households is given in the following table.

Score ranges	Households	%
0 – 11	229	8%
12 – 18	483	17%
19 – 23	573	21%
24 – 100	1497	54%

Indicators wise analysis of the poverty scorecard is given in the following table:

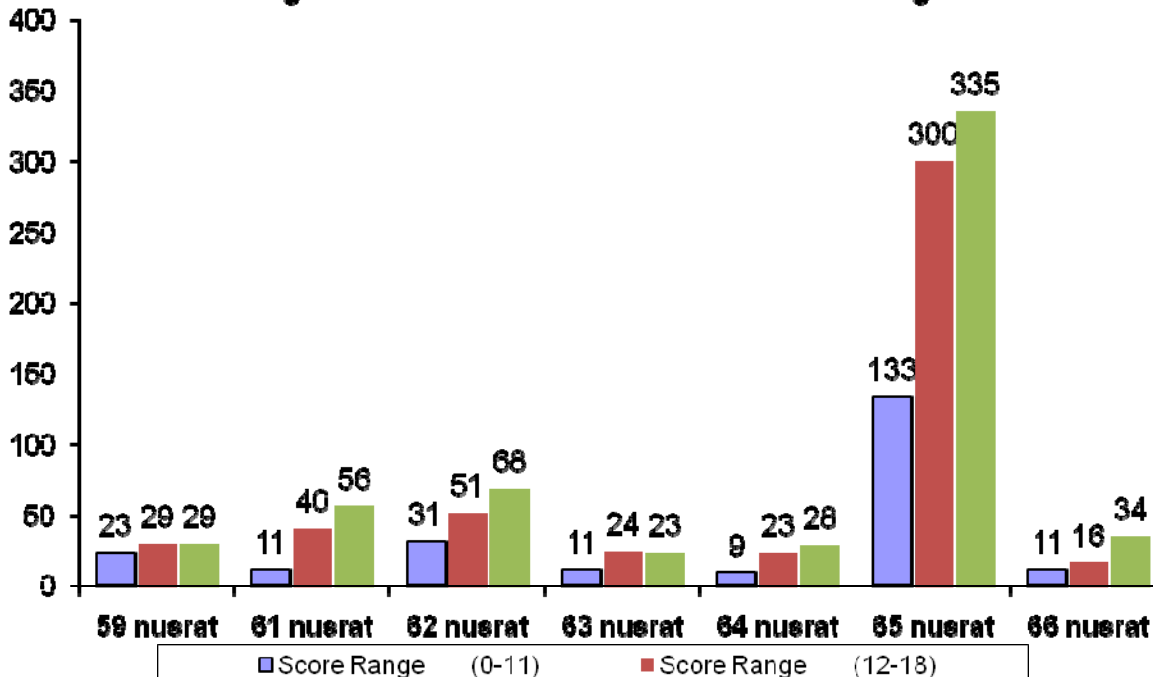

Indicators	Options	HHs	%
1. How many people in the HH are under the age of 18 and over the age of 65?	1. 0 – 2 2. 3 – 4 3. 5 – 6 4. 7 or more	1794 667 239 82	64% 24% 9% 3%
2. What is the highest education level of the head of the household (completed)?	1. Class 11 or beyond 2. Class 6 to Class 10 included 3. Less than Class 5 to Class 1 included 4. Never attended school	158 365 931 1328	6% 13% 33% 48%
3. How many children in the HH between 5 to 16 years old are currently attending school?	1. All the children age b/w 5 and 16 years old are attending school 2. None of the children age b/w 5 and 16 years old are attending school 3. Only some of the children age b/w 5 & 16 years old are attending school 4. There are no children age b/w 5 and 16 years old in the household	363 1158 653 608	13% 42% 23% 22%
4. How many rooms per person of the household owns?	1. <input type="checkbox"/> 0 - ≤ 0.2 2. <input type="checkbox"/> 0.2 - ≤ 0.3 3. <input type="checkbox"/> 0.3 - ≤ 0.4 4. <input type="checkbox"/> 0.4	1342 590 67 783	48% 21% 2% 28%
5. What kind of toilets is used by the household?	1. Dry raised latrine or dry pit latrine 2. Flush connected to public sewerage, to a pit or open drain 3. There is no latrine in the household	396 123 2263	14% 4% 81%
6. Does the HH own at least one refrigerator, freezer or washing machine?	1. Yes 2. No	196 2586	7% 93%
7. Does the HH own at least one air conditioner, air cooler, geyser or heater?	1. Yes 2. No	57 2725	2% 98%
8. Does the HH own at least on cooking stove, cooking range or microwave oven?	1. Yes 2. No	45 2737	2% 98%
9. Does the HH own the following engine driven vehicles?	1. At least one car/ tractor and at least one motorcycle/ scoter 2. At least one car/ tractor but no motorcycle/ scoter 3. Neither car/ tractor nor motorcycle/ scoter 4. No car/ tractor but at least one motorcycle/ scoter	12 51 2464 255	0% 2% 89% 9%
10. Does the HH own at least one TV?	1. Yes 2. No	626 2156	23% 77%
11. Does the HH own the following livestock?	1. At least one buffalo/ bullock and at least one cow/ goat/ sheep 2. At least one buffalo/ bullock but no cow/ goat/ sheep 3. Neither buffalo/ bullock nor cow/ goat/ sheep 4. No buffalo/ bullock but at least one cow/ goat/ sheep	301 399 1611 471	11% 14% 58% 17%
12. How much agricultural land does the household own?	1. ≤ 0 2. 0 - ≤ 12.5 acre 3. 12.5	2245 445 92	81% 16% 3%

Following table shows village wise number of households in each poverty band. Detailed lists of households in each category are given in Annex 2, 3, 4 and 5.

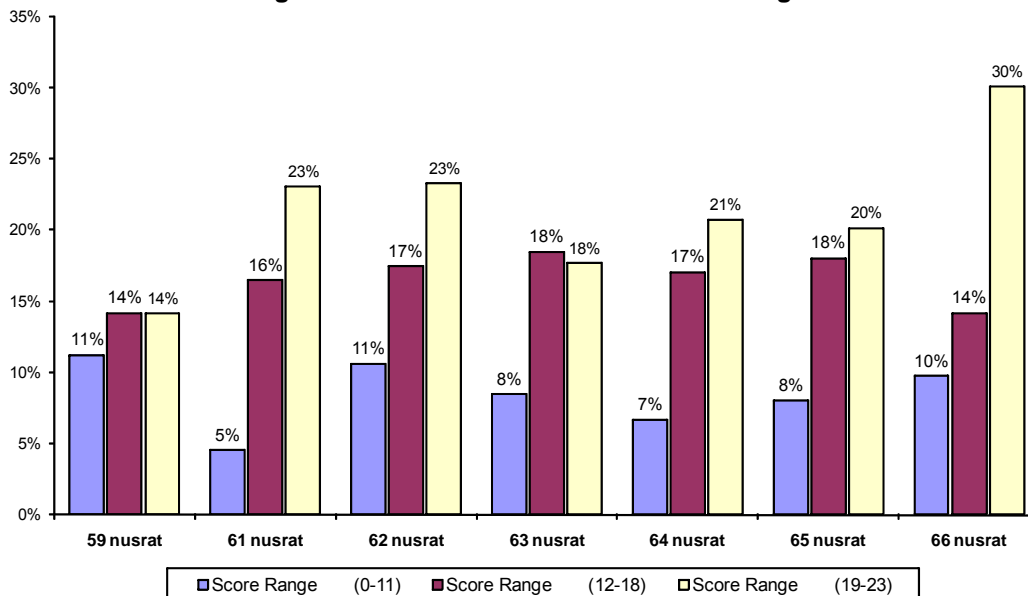

Sr.	Village/ MALOOKAN Name	Score Range 0 – 11	Score Range 12 – 18	Score Range 19 – 23	Score Range 24 – 100

Village/ Deh wise number of HHs with Score Ranges

Village/ Deh wise % Poor HHs with Score Ranges

1. Verification of the information given in the Scorecard
2. Asking gateway questions which can be
 - a. Does the household own 2 or more acres of land?
 - b. Does the household own more than one buffalo?
 - c. Does the household own more than two cows
 - d. Is anyone belonging to this household working abroad?
3. If the household answers "Yes" to any of the gateway questions then it should be disqualified for the intervention desired for extremely poor household
4. Similar gateway questions can be designed for the Chronically poor households
5. If the Scorecard information is found correct and replies to all of the gateway questions is in negative then the proposed package / intervention should be delivered.

Proposed Interventions

On the basis of situation analysis and NRSP's own experience of working with the poor households in this area, following interventions are proposed. These interventions are of two types a) Household level interventions specific for households in different poverty bands and b) village level interventions covering the entire Union Council.

Total Cost of Interventions for 5 Years

SR #	Category	No of HH	Amount
1	Extremely psoor households	229	11,170,000
2	Chronically Poor household	483	13,295,000
3	Transitory Poor households	573	15,770,000
4	Village Level Interventions	2782	106,727,500
Total Cost			146,962,500

Household level Interventions

These interventions should focus on the households, which are below the poverty line according to the poverty assessment. For these households following interventions are proposed.

1. Extremely poor 229 households:

Activity	Unit Cost (Rs.)	Units	Total Cost (Rs.)
Income Generating Grant (These will be in kind grants for any income generation activity which may include business, livestock etc.)	25,000	229	5,725,000
Targeted food subsidy through food stamps (including the cost of Smart Card @ Rs. 200 per card)	5,000	229	1,145,000
Vocational Training program for siblings (It is estimated that 75% households may benefit from this intervention)	25,000	172	4,300,000
Total Cost (Rs.)			11,170,000

2. Chronically Poor 483 households

Activity	Unit Cost (Rs.)	Units	Total Cost (Rs.)
Community Investment Fund to be managed by Community Organizations of Chronically Poor (Fifty percent households to get interest free loans every year @ Rs. 15,000 per loan. CIF will be a revolving fund to be managed by communities at the Village / Union Council level, recoveries to be revolved)	15,000	483	7,245,000
Vocational Training program for siblings (50% households to benefit from this intervention)	25,000	242	6,050,000
Total Cost (Rs.)			13,295,000

3. Transitory Poor 786 households

Activity	Unit Cost (Rs.)	Units	Total Cost (Rs.)
Access to microfinance services (Fifty percent households to get micro-credit every year @ Rs. 15,000 per loan. CIF will be a revolving fund to be managed by communities at the Village / Union Council level, recoveries to be revolved)	15,000	573	8,595,000
Vocational Training program for siblings (50% households to benefit from this intervention)	25,000	287	7,175,000
Total Cost (Rs.)			15,770,000

Village level Interventions

Following proposed interventions would cover 100% households of the villages in this Union Council.

Activity	Unit Cost (Rs.)	Units	Cost (1 Year) Rs.	Total Cost (5 Years) Rs
Health Insurance through Adamjee Insurance (Indoor)	250	2,782	695,500	3,477,500
Community Physical Infrastructure	350,000	20	7,000,000	35,000,000
No. of non-functional primary schools to be made functional with provision of quality education.	650,000	-	-	-
No. of functional primary schools to be provided capacity building support for provision of quality education	350,000	39	13,650,000	68,250,000
Total Cost (Rs.)			21,345,500	106,727,500

D گھرانے کا سوالنامہ

غیرت کی علامات (Indicators) درست جواب کے ساتھ [X] کا نشان لگائیے۔	
1 گھرانے کے کتنے افراد عموماً کھتے رہتے اور کھانا کھاتے ہیں؟ (مہمانوں اور ملاقاتیوں کو شامل نہ کریں)	<input type="text"/>
2 گھرانے کے کتنے افراد کی عمر 18 سال سے کم اور 65 سال سے زیادہ ہے؟	<input type="checkbox"/> 0-2 افراد <input type="checkbox"/> 3-4 افراد <input type="checkbox"/> 5-6 افراد <input type="checkbox"/> 7 یا اس سے زائد
3 گھرانے کے سربراہ کی تعلیمی قابلیت کیا ہے؟	<input type="checkbox"/> کبھی سکول نہیں گیا <input type="checkbox"/> پرائمری پاس یا اس سے کم <input type="checkbox"/> کلاس 6 سے میٹرک (پاس) <input type="checkbox"/> کلاس 11 کا گریڈ یا اس سے زیادہ
4 گھرانے کے 5 سے 16 سال کی عمر کے کتنے بچے سکول جاتے ہیں؟	<input type="checkbox"/> گھرانے میں سے 16 سال کی عمر کا کوئی بچہ نہیں ہے <input type="checkbox"/> 5 سے 16 سال کی عمر کے تمام بچے سکول جاتے ہیں <input type="checkbox"/> 5 سے 16 سال کی عمر کا کوئی بچہ سکول نہیں جاتا
5 گھرانے کتنے کمروں میں رہائش پذیر ہے؟ (صرف رہائشی کمرے تحریر کریں، سنور، غسل خانہ، لیٹرین، باورچی خانہ اور دکان وغیرہ شامل نہ کریں)	<input type="text"/>
6 گھرانے کس قسم کی لیٹرین استعمال کرتا ہے؟	<input type="checkbox"/> لیٹرین کی نکاسی آب پبلک سیوریج، گڑھے / گھریا کھلی تالیوں سے منسلک ہے <input type="checkbox"/> خشک اونچی لیٹرین یا زمینی گڑھا <input type="checkbox"/> گھرانے میں لیٹرین نہیں ہے۔
7 کیا گھرانے کی ملکیت میں ایک ریفریجریٹرز یا واشنگ مشین ہے؟	<input type="checkbox"/> ہاں <input type="checkbox"/> نہیں
8 کیا گھرانے کی ملکیت میں کم سے کم ایک ایئر کنڈیشنر، ایئر کولر، گیز ری ایئر ہے؟	<input type="checkbox"/> ہاں <input type="checkbox"/> نہیں
9 کیا گھرانے کی ملکیت میں کم سے کم ایک چولہا، کوئلہ، گیس یا ٹرانس فوریوڈ ہے؟	<input type="checkbox"/> ہاں <input type="checkbox"/> نہیں
10 کیا گھرانہ انجن سے چلنے والی درج ذیل سواروں کی ملکیت رکھتا ہے؟	<input type="checkbox"/> کم از کم ایک کار / ٹریکٹر اور ایک سکوتر یا موٹر سائیکل ہے <input type="checkbox"/> کم از کم ایک کار / ٹریکٹر ہے مگر سکوتر یا موٹر سائیکل نہیں ہے <input type="checkbox"/> کار / ٹریکٹر نہیں مگر کم از کم ایک موٹر سائیکل یا سکوتر ہے <input type="checkbox"/> نہ کار / ٹریکٹر ہے نہ سکوتر / موٹر سائیکل ہے
11 کیا گھرانے کی ملکیت میں کم از کم ایک ٹی وی ہے؟	<input type="checkbox"/> ہاں <input type="checkbox"/> نہیں
12 کیا گھرانے کے زیر ملکیت درج ذیل مال و مویشی (Livestock) ہیں؟	<input type="checkbox"/> کم از کم ایک بھینس / بھینسا ہے اور کم از کم ایک گائے / بکری / بھیڑ <input type="checkbox"/> کم از کم ایک بھینس / بھینسا ہے لیکن کم از کم ایک گائے / بکری / بھیڑ موجود ہے <input type="checkbox"/> نہ بھینس / بھینسا ہے نہ گائے / بکری / بھیڑ ہے
13 گھرانے کی زیر ملکیت زرعی زمین کا رقبہ درج کریں	رقبہ <input type="text"/> رقبہ کے یونٹ <input type="text"/> (کنال، ایکڑ، مربع فٹ، مرلہ، جریب، ایکڑ)

E دفتری استعمال

1- مکمل	نتیجہ	سال	مہینہ	تاریخ	معلومات حاصل کرنے کی تاریخ	فارم بھرنے والے کا مکمل نام
2- پمکمل						NIC/CNIC
3- منسوخ						سپر وائزر کا مکمل نام
4- گھر میں کوئی موجود نہیں						NIC/CNIC
5- گھرانے تلاش نہیں کیا جاسکا						

F تصدیق نامہ

میں اس بات کی تصدیق کرتا/کرتی ہوں کہ مندرجہ بالا فراہم کردہ معلومات میرے علم کے مطابق بالکل درست ہیں۔

نام معلومات دہندہ

تاریخ پیدائش

معلومات دہندہ کے دستخط

معلومات دہندہ کا نشان لگوٹھا
